Table of Contents

I. Biological Behaviour of Human Tumours Transplanted in Mice and the Evaluation of Therapeutic Response

The Therapeutic Response of a Variety of Human Tumour Xenografts
G. G. Steel and M. J. Peckham 3

Biology of Human Ovarian Cancer Xenografts
E. Boven 11

Representativity of Xenografts for Clinical Cancer.
Tumor and Host Characteristics as Variables of Tumor Take Rate
Ø. Fodstad 15

II. Prediction of Tumour Response for the Individual Patient by the Human Tumour Xenograft

Comparison of Tumor Response in Nude Mice and in Patients
H. H. Fiebig 25

III. Prediction of Antitumour Activity per Tumour Type by the Human Tumour Xenograft

Conventional Agents in Human Ovarian Cancer Xenografts
E. Boven 33

Activity of Conventional Drugs in Head and Neck Cancer Xenografts
B. J. M. Braakhuis and G. B. Snow 37

Preclinical Drug Evaluation with Human Melanoma Xenografts
R. Osieka 41

Lung Xenografts as a Predictive Screen for Antineoplastic Agents
J. Mattern, K. Wayss, and M. Volm 47

Chemotherapy Studies in Human Non-Small Cell Lung Cancer Xenografts Transplanted in Immune-Deprived Mice
J. Carmichael and J. F. Smyth 51

Establishment and Response to Chemotherapy of Human Cervical Carcinoma Xenografts
L. R. Kelland and K. S. Tonkin 57

The Usefulness of the Nude Mouse Model for Predicting the Chemosensitivity of Human Tumors. Studies in Malignant Melanoma
Ø. FODSTAD, S. AAMDAL, and A. PIHL 63

IV. Preclinical Evaluation of Analogs of Known Anticancer Agents

Screening of Analogs in Human Ovarian Cancer Xenografts
E. BOVEN 71

Predictability of Clinical Response of Several Human and Murine Tumor Models to Four Anthracycline Derivatives
G. PEZZONI and F. C. GIULIANI 75

V. New Drugs

Activity of Six New Drugs in Head and Neck Cancer Xenografts
B. J. M. BRAAKHUIS, A. LEYVA, H. M. PINEDO, and G. B. SNOW 81

Activity of Metallocene Complexes Against Human Tumours Heterotransplanted into Athymic Mice
P. KOEPF-MAIER 85

VI. Human Tumour Xenografts in the Development of Biological Response Modifiers

The Effect of Human and Murine Interferons on Human Tumour Xenografts
F. R. BALKWILL 91

Biodistribution and Therapeutic Efficacy of a Monoclonal Antibody-Methotrexate Conjugate in Mice
M. V. PIMM, J. A. CLEGG, M. C. GARNETT, and R. W. BALDWIN 95

The Effect of Interferon-Alpha on the Activity of Cytotoxic Drugs in Bronchial Carcinoma Xenografts
R. J. FERGUSSON and J. F. SMYTH 99

The Nude Mouse for the Study of Immunotoxins
H. E. BLYTHMAN, A. BORD, I. BUISSON, O. THURNEYSSEN, G. RICHER, and F. K. JANSEN 103

VII. Human Tumour Xenografts in Drug Screening

Proposal for the Application of Xenografts in Screening for New Anticancer Agents and in Selecting Tumor Types for Phase II Clinical Trials
B. WINOGRAD, M. W. LOBBEZOO, and H. M. PINEDO 111

Human Tumour Xenograft Models for Use with an In Vitro-Based, Disease-Oriented Antitumour Drug Screening Program
R. H. SHOEMAKER, T. L. MCLEMORE, B. J. ABBOTT, D. L. FINE, E. GORELIK, J. G. MAYO, Ø. FODSTAD, and M. R. BOYD 115

VIII. Importance of Drug Resistance in Screening

Mechanisms of Drug Resistance in Screening
B. W. Fox 123

Circumvention of Inherent Resistance with Verapamil
in a Human Tumour Xenograft
S. Merry, D. Cunningham, E. R. Courtney, T. Hamilton, S. B. Kaye,
and R. I. Freshney 127

IX. Proferred Papers at the E. S. O. Seminar

Clonogenic Assay Screening Study Group (CASSG):
Contribution to an EORTC Drug Screening Programme
M. S. Aapro 133

Polyamine Uptake by Malignant Brain Tumour Xenografts in Nude Mice
F. Darcel, M. Chatel, V. Quemener, and J. Ph. Moulinoux 134

The Activity for a Novel Niteosourea (TCNU) in Human Lung Cancer Xenografts
R. J. Fergusson, L. E. Anderson, and J. F. Smyth 135

Xenografts in Pharmacologically Immunosuppressed Mice
as a Model to Test the Chemotherapeutic Sensitivity of Human Tumours
G. L. Floersheim, A. Bieri, and N. Chiodetti 135

New Tissue-Specific Metastasis Models in Adult Nude Mice
Ø. Fodstad, S. Aamdal, R. H. Shoemaker, and A. Pihl 136

Fractionated Irradiation of Human Tumor Xenografts in Athymic Nude Mice
W. Hinkelbein, A. Wuerdinger, E. Wallbrecher, and H. H. Fiebig 137

An Animal Model for Human Tumor Xenografts
J. Hoogenhout, C. R. Jerusalem, J. J. M. van Gasteren, and H. B. Kal 137

Xenografted Human Tumors in Preclinical Drug Design
L. Kopper, P. Nagy, J. Rajnay, and K. Lapis 138

Growth in Nude Mice of a T-Cell Line from a Case of Acute Lymphoblastic
Leukaemia: A Model for Experimental Immunotherapy of Human Neoplasia
M. G. Martinotti, R. Arione, and G. Forni 139

5-Fluorouracil (5-FU) + Cis-diamminedichloroplatinum (DDP) Treatment
of Human Colorectal Tumor Xenografts
G. Pratesi, M. Tortoreto, and G. Parmiani 140

Inter and Intra-Tumor Variation in the Response to Chemotherapy
of Human Small Cell Carcinoma of the Lung (SCCL) Grown in Nude Mice
M. Spang-Thomsen and S. A. Engelholm 141

Human Carcinoma Cell Lines Xenografted in Athymic Mice:
Biological and Antigenic Characterization of an Intra-Abdominal Model
E. Tagliabue, S. Canevari, S. Menard, D. Mezzanzanica, R. Orlandi,
M. Ripamonti, and M. I. Colnaghi 141

Squamous Cell Carcinoma Xenografts as a Model for the Study of Drug-Induced Cell Kinetic Changes in Head and Neck Cancer
J. WENNERBERG 142
