Contents

Preface vii
Contributors xiii

1 Perspectives on Use of Human Fetal Pancreatic Tissue in the Field of Research on Diabetes Mellitus: An Introduction 1
CHARLES M. PETERSON, LOIS JOVANOVIC-PETERSON, BENT FORMBY

2 Tissue Culture and Cryopreservation of Fetal Mammalian Endocrine Pancreas Intended for Transplantation 9
STELLAN SANDLER, ARNE ANDERSSON, INGEMAR SWENNE, LEIF JANSSON, OLLE KORSGREN, ANNIKA SCHNELL LANDSTROM, L.A. HÅKAN BORG, BIRGER PETERSSON, CARL-GUSTAZ GROTH, CLAES HELLERSTROM

3 Ontogeny of Non-β Cell Function in the Fetal Islet 43
ALBERTO HAYEK

4 Studies of Human Fetal Pancreatic Islets In Vitro 55
BENT FORMBY, LIBERTY WALKER, CHARLES M. PETERSON

5 Strategies for Specific Immunosuppression In Vitro with Cyclosporine 67
JEFFREY E. CHRISTIAANSEN, CHARLES M. PETERSON

6 Islet Graft Pretreatment with PUVA or Antibodies to MHC Antigens 79
SIEGFRIED SCHMIDT, BARBARA WILKE, BEATE KUTTLER, INGRID KLÖTING

7 Rodent Xenografts of Human and Porcine Fetal Tissue 93
BEN J. WALTHALL, KATHLEEN A. ELIAS,

WILLIAM L. GODFREY, YVONNE E. MCHUGH, PAUL S. MOSS, ROBERT A. NOONAN, JULIE R. ZAYAS, H. FRED VOSS

8 Fetal Pancreas Transplantation for Treatment of Type I Diabetes: Miniature Swine Model 111
YOKO MULLEN

9 From Nude Mouse to Man 127
BERNARD E. TUCH

10 Fetal Islet Transplantation in Diabetic Mice: A Model for Human Islet Transplants 165
TOMAS E. MANDEL

11 Studies of Transplantation of Human Fetal Tissue in Man ... 185
LOIS JOVANOVIC-PETERSON, KRISTEN WILLIAMS, MURRAY BRENNAN, KURT FUHRMANN, WILLIAM RASHBAUM, LIBERTY WALKER, CHARLES M. PETERSON

Index 197
