Contents

Preface x
About the Author xiii
Acronyms and Abbreviations xv

Chapter 1 Introduction 1

Shalenanza—Revisited 1
The Other Side of the Coin 2
Earthquakes 4
What Causes Earthquakes? 4
Seismology 5
Earthquake Magnitude 6
Earthquake Intensity 6
Internal Structure of Earth 7
Key Definitions 8
Fracing Terminology 9
Purpose of Text 16
The Bottom Line 21
Thought-Provoking Discussion Questions 21
Notes 21
References 21

Chapter 2 Shale Gas 23

Importance of Shale Gas 23
Versatility of Natural Gas 26
Alternative/Renewable Energy 27
The 411 on Natural Gas 28
The 411 on Processing and Refining Natural Gas 29
Natural Gas Refining: The Process 30
The Bottom Line 32
Thought-Provoking Discussion Questions 32
Notes 32
References 33

Chapter 3 Shale Gas Geology 34

Introduction 34
Key Terms 34
Sedimentation 34
Types of Sedimentary Rocks 35
Clastic Sedimentary Rocks 36
Recoverable Resources 39

Determining the Grade of Oil Shale 39
Origin of Organic Matter 41
Thermal Maturity of Organic Matter 41
Classification of Oil Shale 42
Evaluation of Oil Shale Resources 44
Chemical Sedimentary Rocks 49
Physical Characteristics of Sedimentary Rocks 51
Sedimentary Rock Facies 52
The Bottom Line 53
Thought-Provoking Discussion Questions 53
Notes 53
References 53

Chapter 4 Shale Gas Plays 56

Unconventional Natural Gas Resources 56
Natural Gas Measurement 57
Natural Gas Calculation 57
Natural Gas Volume Calculations 58
Oil Volume Calculations 58
Gas-to-Oil Calculations 59
U.S. Natural Gas Reserves 59
Distribution of Unconventional Natural Shale Gas 59
Fast Forward to the Future 61
Thought-Provoking Discussion Questions 62
References 62

Chapter 5 Shale Gas Sources 63

Shale Gas in the United States 63
Geologic Time Scale 63
Active U.S. Gas Shale Plays 68
Barnett Shale Play 68
Fayetteville Shale Play 70
Haynesville Shale Play 73
Marcellus Shale Play 75
Woodford Shale Play 77
Antrim Shale Play 78
New Albany Shale Play 80
Thought-Provoking Discussion Questions 82
References 85

Chapter 6 Hydraulic Fracturing: The Process 87

Poor Farm Folk to Texas Rich 87
Drilling for Water versus Drilling for Shale Gas 89

Water Well Systems 89
Water Well Site Requirements 90
Types of Water Wells 90
Components of a Water Well 92
Well Casing 93
Grout 93
Well Pad 93
Sanitary Seal 93
Well Screen 93
Casing Vent 93
Drop Pipe 94
Miscellaneous Well Components 94
Shale Gas Drilling Development Technology 94
Drilling 95
Well Casing Construction 100
Drilling Fluids and Retention Pits 103
Hydraulic Fracturing 103
Fracture Design 104
Hydraulic Fracturing Process 107
Fracturing Fluids 110
Fracking Water Supply 114
The Bottom Line 117
Thought-Provoking Discussion Questions 119
Notes 119
References 119

Chapter 7 Laws and Regulations Affecting Gas Shale Development & Operations 121

Introduction 121
Regulations for Shale Gas Operations 125
Fracking Jobs Are Grave-Digging Jobs! 125
Pollution: Effects Often Easy to See, Feel, Taste, and/or Smell 127
Regulatory Structure 128
Federal Environmental Laws and Shale Gas Development 129
State Regulations 129
Local Regulation 131
Water Quality Regulations 133
Genesis of Clean Water Reform 133
Clean Water Act 134
Safe Drinking Water Act 141
SDWA Definitions 142
SDWA Specific Provisions 144
1996 Amendments to SDWA 150
Implementing SDWA 151
Oil Pollution Act of 1990 157

Air Quality 159
Air Pollution 159
Atmospheric Dispersion, Transformation, and Deposition 160
Dispersion Models 168
Major Air Pollutants 170
Ozone & Photochemical Smog 174
Clean Air Act 176
Title 1: Attainment & Maintenance of NAAQS 177
Title 2: Mobile Sources 179
Title 3: Air Toxics 180
Title 4: Acid Deposition 180
Title 5: Permits 182
Title 6: Ozone and Global Climate Protection 182
Title 7: Enforcement 183
Clean Air Act Amendments 183
State Implementation Plans 183
New Source Review 184
Air Quality Monitoring 185
CAA: Interface with Hydraulic Fracturing Operations 187
Stationary Spark Ignition Internal Combustion Engines 189
Reciprocating Internal Combustion Engines 189
Air Permits 190
Land (Soil) Quality 190
Resource Conservation and Recovery Act 190
Endangered Species Act 193
Oil and Gas Operations on Public Lands 194
Superfund (CERCLA) 195
Emergency Planning and Community Right-to-Know Act 196
OSHA: Oil and Gas Drilling, Servicing, and Storage Standards 197
Occupational Safety and Health Act of 1970 (OSH Act) 197
29 CFR 1910 Subparts A-Z 198
Industry Group SIC 138—Oil and Gas Field Services:
Process Description 201
OSHA Standards Applicable to Shale Gas Operations 203
Overview of Subpart D 203
Overview of Subpart E 205
Overview of Subpart F 210
Overview of Subpart G 215
Overview of Subpart H 218
Overview of Subpart I 221
Overview of Subpart J 226
Subpart L Overview 236
Overview of Subpart N 240
Subpart O Overview 247
Sample Safe Work Practices: Safeguarding Machinery 254
Safe Work Practices: Machine Guarding 254

Machine Guarding: Training, Enforcement, and Inspections 254
Machine Guarding Checklist 255
Requirements for All Safeguards 256
Mechanical Hazards 256
Overview of Subpart S 273
Subpart Z Overview 280
Hazard Communication (29 CFR 1910.1200) 280
Safety Data Sheets 281
Hazard Communication Program Definition of Terms 282
Thought-Provoking Discussion Questions 285
Notes 285
References and Recommended Readings 286

Chapter 8 Chemicals Used in Hydraulic Fracturing 291

Background 291
Types of Fracturing Fluids and Additives 291
Naturally Occurring Radioactive Material 299
Fracing Fluids and Constituents 300
Trade Secrets and Proprietary Chemicals 306
Thought-Provoking Discussion Questions 307
Notes 307
References 307

Chapter 9 Environmental Considerations 310

Introduction 310
Access Roads, Well Pads, and Mineral Rights 311
Horizontal Wells 312
Reducing Surface Disturbance 313
Reducing Wildlife Impacts 314
Reducing Community Impacts 315
Protecting Groundwater 316
Hydraulic Fracturing Water Cycle 318
Thought-Provoking Discussion Questions 319
References 320

Glossary 322

Appendix A 331

Appendix B 350

Index 353
