Contributors ____ vii

Preface
Ranjit K. Chandra ____ ix

1 Nutritional Regulation of Immunity: An Introduction
Ranjit K. Chandra ____ 1

2 Lymphokines and Monokines in Protein-Energy Malnutrition
Laurie Hoffman-Goetz ____ 9

3 Plasma Inhibitory Factors in Protein Calorie Malnutrition
Lekan Samusa Salimonu ____ 25

4 Lipid Modulation of Immune Responses
Patricia V. Johnston ____ 37

5 Immunological Response Modification by Vitamin A and Other Retinoids
Ronald Ross Watson and James A. Rybski ____ 87

6 B Vitamins: Effects on Specific and Nonspecific Immune Responses
Adrianne Bendich and Marvin Cohen ____ 101

7 Antioxidant Vitamins and Immune Responses
Adrianne Bendich ____ 125

8 Immunology of Iron-Deficient Subjects
P. Bhaskaram ____ 149

9 Iron Deficiency, Immunity, and Disease Resistance in Early Life
Adria Rothman Sherman and Lesley Helyar ____ 169

10 Zinc Modulation of Immune Response
Susanna Cunningham-Rundles and Ward F. Cunningham-Rundles ____ 197

11 Trace Element Deficiencies and Immune Responsiveness in Humans and Animal Models
Mark P. Fletcher, M. Eric Gershwin, Carl L. Keen, and Lucille Hurley ____ 215

12 Immunoparesis Caused by Viral and Bacterial Infections
H.M. Coovadia ____ 241

13 Immunologic Aspects of Diabetes Mellitus
Nadir R. Farid ____ 269

14 Effects of Overnutrition on Immune Responses and Risk of Disease
Ranjit K. Chandra ____ 315

Index ____ 329
