Contents

1 Medical Terminology 1
1.1 Introduction 1
1.2 Roots 1
1.3 Prefixes 4
1.4 Suffixes 5
1.5 Combining Forms in Medical Terminology 7
1.6 Eponyms 7
1.7 Acronyms 8
1.8 Homonym 14
Suggested Reading 14

2 Human Body: General Characteristics 15
2.1 Part 1: Body Gross Structure and Orientation 16
2.2 Part 2: Homeostasis 23
Suggested Reading 25

3 Biochemistry 27
3.1 Part 1: Inorganic Compounds 28
3.2 Part 2: Organic Chemistry 30
Suggested Reading 47

4 Cells 49
4.1 Part 1: Eukaryotic Cells 50
4.2 Part 2: Prokaryotic Cells 83
4.3 Part 3: Cell Destruction 99
4.4 Part 4: Cell Metabolism 101
Suggested Reading 107

5 Viruses 109
5.1 Definition 109
5.2 Components 110
5.3 Sizes and Shapes 112
5.4 Classification of Viruses 114
5.5 Viral Replication 115
5.6 Virus-Like Agents 116
Suggested Reading 117

6 Tissues 119
6.1 Part 1: Epithelial Tissue 120
6.2 Part 2: Connective Tissue 127
6.3 Part 3: Muscle Tissue 134
6.4 Part 4: Nervous Tissue 136
6.5 Part 5: Tissue Repair 136
Suggested Reading 138

7 Integumentary System 141
7.1 Part 1: Skin 142
7.2 Part 2: Skin Appendages 146
7.3 Part 3: Skin Color 152
7.4 Part 4: Skin Physiology 153
Suggested Reading 154

8 Skeletal System 155
8.1 Part 1: Cartilage 156
8.2 Part 2: Ligaments 160
8.3 Part 3: Bone 161
8.4 Part 4: Joints 175
8.5 Part 5: Human Skeleton 187
Suggested Reading 216

9 Muscular System 217
9.1 Part 1: Skeletal Muscles 219
9.2 Part 2: Smooth Muscle 246
9.3 Part 3: Skeletal Muscle System 250
Suggested Reading 287

10 Nervous System 289
10.1 Part 1: Cells in the Nervous System 290
10.2 Part 2: Nervous System Structures 313
Suggested Reading 362

11 Special Senses 363
11.1 Part 1: The Eye and Vision 364
11.2 Part 2: Hearing and Balance—Ear 387
11.3 Part 3: Chemical Sensing 402
Suggested Reading 408

12 Endocrine System 409
12.1 Part 1: Hormones 410
12.2 Part 2: Endocrine Gland 413
Suggested Reading 433

13 Cardiovascular System 435
13.1 Part 1: Heart 436
13.2 Part 2: Blood Vessels 457
13.3 Part 3: Blood 477
Suggested Reading 514

14 Lymphatic and Immune Systems 515
14.1 Part 1: The Lymphatic System 516
14.2 Part 2: The Immune System 529
Suggested Reading 558

15 Respiratory System 559
15.1 Part 1: Structure 560
15.2 Part 2: Physiology of Respiration 586
Suggested Reading 606

16 Digestive System 607
16.1 Part 1: General Structure 609
16.2 Part 2: Functional Anatomy 615
16.3 Part 3: Digestion Physiology 662
16.4 Part 4: Absorption Physiology 675
16.5 Part 5: Digestive System Hormones 688
Suggested Reading 693

17 Urinary System 695
17.1 Part 1: Kidney Anatomy 696
17.2 Part 2: Kidney Microscopic Structure 700
17.3 Part 3: Kidney Function 708
17.4 Part 4: Collecting System 732
Suggested Readings 742

18 Fluid, Electrolyte, and Acid-Base Balance 743
18.1 Part 1: Body Fluids 744
18.2 Part 2: Water Regulation 746
18.3 Part 3: Electrolytes 747
18.4 Part 4: Acid-Base Balance 755
18.5 Part 5: Trace Elements 758
18.6 Part 6: Vitamins 759
Suggested Reading 761

19 Reproductive System 763
19.1 Part 1: Female Reproductive System Structure 764
19.2 Part 2: Female Reproductive System Physiology 780
19.3 Part 3: Male Reproductive System Structure 786
19.4 Part 4: Male Reproductive System Physiology 797
19.5 Part 5: Contraception 804
19.6 Part 6: Reproductive Technologies and Assisted Reproduction 811
Suggested Reading 814

Index 815
