I
The Distinct Value Model of Banking and Its Roles and Methods

1. What Do Banks Do?

1.1 Introduction 7
1.2 Banks and technology 10
1.3 Why choose this banking textbook? 11
1.4 Data on "What do banks do?" from their portfolios 21
1.5 What does JPMorgan Chase N.A. do? 23
1.6 Comparisons of selected Money Center, Superregional, Regional, and Community banks, 2019:Q4 31
1.7 Comparisons between banks and nonbank financial firms 38
1.8 Comparisons between banks and nonfinancial firms 49
1.9 Are banks mostly favorable or unfavorable to the economy and why? 60
Learning Objectives 66
Key Terms 67
References 68

2. The Roles of Banking: Outputs and Inputs for Bank Customers and Investors

2.1 Why identify and measure bank outputs and inputs? 81
2.2 Identifying and measuring bank outputs and inputs using US data 86
2.3 "Hidden stories" of banking as told through bank outputs and inputs for US Banks, 2003: Q1–2022:Q4 90
2.4 Smell test 97
Learning Objectives 101
Key Terms 102
References 102

3. The Methods of Banking: Lending and Deposit Technologies and Contracts

3.1 Background information on lending and deposit technologies and contracts 107
3.2 Lending technologies and contracts 109
3.3 Example of Loan Contract Terms from Research 115
Learning Objectives 117
Key Terms 118
References 119

4. Originate-to-Distribute (OTD): The Cooperate-to-Compete competition strategy

Shadow banking 122
4.1 Forms of OTD: Securitization, syndication, and loan sales 122
4.2 Do banks continue to provide distinct value after OTD? 139
Learning Objectives 140
Key Terms 141
References 141

II

The Practice and Policy of Banking

5. Systemic risks, cycles, and crises

5.1 Crises 146
5.2 Cycles 152
5.3 Systemic risks 153
5.4 Details on the four crises 154
Learning objectives 164
Key terms 165
References 165

6. Systemically Important Banks

6.1 Measures of systemic risk 168
6.2 Global systemic risk by country 169
6.3 Systemic risk in the US 169
6.4 JPMorgan Chase over two crisis periods 170
References 175

7. Central Banking

7.1 Introduction 177
7.2 A short historical review: The birth of monetary policy in the US 178
7.3 Structure of the Federal Reserve System 181
7.4 Structure of the Federal Reserve System and policy responsibilities 185
7.5 The Federal Reserve's goals and dual mandate 186
7.6 Central bank independence 187
7.7 Main monetary policy tools 192
7.8 Traditional theoretical channels of monetary policy 195
7.9 Some measurements of monetary policy stance 198
7.10 Shadow banks and monetary policy 200
Learning Objectives 201
Key Terms 202
References 202

8. Banking in the US

8.1 The dual banking system in the US 208
8.2 US banking legislation and other changes over history 217
8.3 The current and future institutional environments for US banking 232
Key Terms 233
Learning Objectives 233
References 234

9. International Banking

9.1 Banking practices across countries and regions 236
9.2 "Rules of the road" for international banks 254
9.3 Banking around the world 261
9.4 Global banking challenges and opportunities 299
Learning Objectives 313
Key Terms 314
References 314

III

Risk Management by Banks and Prudential Authorities

10. How Bank Risks Are Managed

10.1 Shared and conflicting goals of banks and prudential authorities and their dynamic and strategic interplay 337
10.2 Prudential and certification mechanisms and comparative advantages of players 339
Learning Objectives 343
Key Terms 343
References 344

11. Interest Rate Risks and Other Market Risks

11.1 How banks manage market risks 345
11.2 How authorities manage interest rate risks and other market risks 360
11.3 Evaluation and suggestions for improvement 361
Learning Objectives 365
Key Terms 365
References 366

12. Credit risks

12.1 How banks manage credit risks 370
12.2 How authorities manage credit risks 383
12.3 Assessment and suggestions for improvement 387
Learning Objectives 388
Key Terms 388
References 388

13. Management of Operational Risks

13.1 How banks manage their operational risks 392
13.2 How authorities manage operational risks 394
13.3 Assessment and suggestions for improvement 396
Learning Objectives 397
Key Terms 397
References 398

14. Liquidity Risks

14.1 How banks manage liquidity risks 400
14.2 How authorities manage liquidity risks 403
14.3 Analysis and suggestions for improvement 406
Learning Objectives 406
Key Terms 407
References 407

15. Leverage Risks

15.1 How banks manage leverage risks 410
15.2 How authorities manage leverage risks 414
15.3 Assessment and suggestions for improvement 422
Learning Objectives 423
Key Terms 423
Reference 424

16. Suggestions for improving bank risk management

16.1 Overall assessment 425
16.2 Suggestions for improvement 426
16.3 Market value challenges to bank risk management 428
Learning Objectives 429
Key Terms 429
References 430

IV

Banking Competition and the Multimarket Competition Strategy

17. Static Competition with Other Commercial Banks

17.1 US banking consolidation 434
17.2 Impact of geographic expansion on static banking competition 437
17.3 The multimarket nature of static banking competition 439
17.4 Application of general banking competition 440
17.5 The cluster approach to multimarket competition using US banking data 441
17.6 Effects of static banking competition on roles of liquidity creation and risk mitigation 441
17.7 Effects of banking competition on the treatment of relationship customers 442
17.8 Benefits and concerns for geographic expansion 443
17.9 Merger premiums 445
17.10 Global and international expansion 445
Learning Objectives 448
Key Terms 448

18. Static competition with other financial institutions and markets

18.1 History and issues regarding universal banking 451
18.2 Regulatory and competitive dynamics 452
18.3 Organizational forms in universal banking 453
18.4 Benefits and risks of universal banking 454
18.5 The future of universal banking in the US 455
Learning Objectives 455
Key Terms 456

19. Dynamic Competition for Innovation in Banking

19.1 Dynamic competition in banking throughout the textbook outside of Part IV 458
19.2 Scholarly research on dynamic competition for nonfinancial innovations 459
19.3 Suggested topics for scholarly research on dynamic competition for banking innovations 460
References 461

V

The "Expect the Unexpected" Orientation Toward Future Banking Challenges

20. Distinct Value in the Digital Future—Banks Versus Digital Financial Firms (DFFs)

20.1 Financial technology firms—FinTech 476
20.2 Mass technology companies—BigTech 486
20.3 Decentralized Finance—DeFi 491
Learning Objectives 502
Key Terms 503
References 503

21. Climate Risks as a Bank Risk Management Challenge

21.1 Climate risks 505
21.2 Climate scenarios 515
21.3 Climate-related financial risks 516
21.4 Climate risk management for banking 520
Learning Objectives 529
Key Terms 530
References 530

Index 531

The book contains both a Companion and an Instructor's site.

Here are the URL to the two sites:
Companion: https://www.elsevier.com/books-and-journals/book-companion/9780443363986
Instructor: https://educate.elsevier.com/9780443363986
