

**THROUGH THE
LENS OF A MASTER:
A RARE AND COMPELLING PROFILE.**

Director Stanley Kubrick's career comes into sharp focus in this compelling and revealing documentary narrated by Tom Cruise. A detailed picture of the cinematic legend emerges via fascinating footage of Kubrick in his early years, at work on film sets and at home and via candid commentary from collaborators, colleagues and family. From the music he chose to the cameras he used to his unrealised projects (including *A.I. Artificial Intelligence*, the much-anticipated Kubrick project directed by Steven Spielberg), you'll uncover a treasure trove of information. Drawing on Kubrick archives, it offers for the first time a truly intimate portrait of his life among family and friends. There has never been a more essential visual companion piece to the man and his movies.
