

Contents

1	Introduction	1
2	Literature review	3
3	Methodology	6
3.1	Principal Component Analysis	6
3.2	Logistic regression	10
3.2.1	Multinomial logit models	14
3.2.2	Nested Logit models - NLM	16
3.2.3	Kernel Logit Model - KLM	17
3.3	Technology Acceptance Model based approach	19
4	Results	23
4.1	Carsharing data analysis	24
4.1.1	Collected data	24
4.1.2	Basic behaviour analysis	27
4.1.3	PCA	29
4.1.4	Logistic regression models	33
4.2	Czech urban residents population survey	41
4.2.1	Collected data	41

Chapter 1

Introduction

4.2.2	Modelling results	42
4.3	European study of Maas adoption	51
4.3.1	Collected data	51
4.3.2	Modelling results	54
4.3.3	Latent related hypothesis testing	58
4.3.4	Context-specific hypothesis testing	61
4.3.5	Analysis on the undecided users	64
4.3.6	The behaviour - intention gap	68

5	Lessons Learned	77
