

co nasytí lidi bez využití zdrojů planety. To je pro mladé blouznivce, nanejvýš snad pro papeže Františka, ne pro usedlé pány od financí. Ať je to jakkoli, nenecháme se odradit. Dříve nebo později bude k výrobě potravin nevyhnutelné pěstovat je na moři. Vězte tedy, že Jellyfish Barge je hotov a funguje.
