1. The very valuable edition of W. D. Ross, *Aristotle's Metaphysics* (Clarendon Press, 1st edition, 1924, corrected 1953) contains introduction, Greek text, analysis, and commentary.

All good recent translations of the *Metaphysics* into English rely on, and none to my mind supersedes, W. D. Ross's version, which is volume viii in *The works of Aristotle translated into English* under Ross's editorship (Clarendon Press, 2nd edition, 1928).
