

SEZNAM POUŽITÉ A DOPORUČENÉ LITERATURY

- J. Trauchant : Practical Manual of Gas Chromatography,
Elsevier Publishing Company - Amsterdam 1969.
- R. Kaiser : Chromatographie in der Gasphase I., II., III., IV.,
Bibliographisches Institut - Mannheim - Hochschultaschenbücher-
-Verlag, 1966.
- D.A. Leathard a B.C. Shurlock : Identification Techniques in Gas Chromatography,
Wiley - Interscience Publication, London, 1970.
- E. Smolková, V. Pacáková a L. Feltl : Plynová chromatografie I., II., III.,
Učební texty UK, Státní pedagogické nakladatelství, Praha, 1976.
- M. Krejčí a J. Pajurek : Kolonová chromatografie v příkladech,
Dům techniky ČVTS Ostrava, 1977.
- J.M. Miller : Separation Methods in Chemical Analysis,
Wiley - Interscience Publication, New York, 1975.
- B.L. Karger, L.R. Snyder a C. Horvath : An Introduction to Separation Science,
Wiley - Interscience Publication, New York, 1973.
- R.P.W. Scott : Contemporary Liquid Chromatography,
Wiley - Interscience Publication, New York, 1976.
- L.R. Snyder a J.J. Kirkland : Introduction to Modern Liquid Chromatography,
Wiley - Interscience Publication, New York, 1974.
- J.H. Knox (ed.): High-Performance Liquid Chromatography, Edinburg University
Press, Edinburg, 1978.
