

## CONTENTS

### CHAPTER I. LINEAR MANIFOLDS AND LINEAR TRANSFORMATIONS IN $\mathfrak{B}_n$

§ 1. Vectors and operations on vectors	<i>page</i>	1
§ 2. Linear manifolds		6
§ 3. Projections; orthonormal bases of a L.M.; complete orthonormal systems		12
§ 4. Products and sums of L.M.'s		17
§ 5. Orthogonal complements; systems of homogeneous linear equations		21
§ 6. Linear transformations; systems of non-homogeneous linear equations		24
§ 7. Sums and products of L.T.'s		34

### CHAPTER II. SPECIAL LINEAR TRANSFORMATIONS IN $\mathfrak{B}_n$

§ 8. Hermitian transformations; eigen-values, eigen-manifolds and reduction		40
§ 9. Normal transformations and unitary transformations		45
§ 10. Projectors		49

### CHAPTER III. SPECTRAL REPRESENTATION OF HERMITIAN TRANSFORMATIONS IN $\mathfrak{B}_n$

§ 11. Continuous functions in $\mathfrak{B}_n$		58
§ 12. Orthonormal systems of eigen-solutions of a H.T. The spectral representations		60
§ 13. Unitary transformations of a Hermitian form to principal axes		67
§ 14. Further maximal properties of the eigen-values. Inequalities		73
§ 15. Functional calculus of H.T.'s. The resolvent and its properties		78
§ 16. Transformations commutative with H.T.'s. Normal transformations		86

## CONTENTS

### CHAPTER IV. SPECTRAL PROPERTIES OF LINEAR TRANSFORMATIONS IN $\mathfrak{B}_n$

§ 17. Eigen-values and principal manifolds	<i>page</i> 97
§ 18. The minimal polynomial	103
§ 19. Functional calculus for L.T.'s. The resolvent	108
§ 20. Canonical bases of a principal manifold	117
§ 21. Jordan's canonical form for a nilpotent L.T. Commutativity	122
§ 22. Jordan's canonical form for any L.T.; elementary divisors and Segre characteristic; similar trans- formations	130
§ 23. Commutativity of L.T.'s	138

### CHAPTER V. VECTOR SPACES WITH POSITIVE HERMITIAN METRIC FORMS

§ 24. The spaces $\mathfrak{B}'_n$ and $\mathfrak{B}_{n0}$	151
§ 25. Hermitian forms in $\mathfrak{B}'_n$ and $\mathfrak{B}_{n0}$ and the pencil $H - \lambda G$ in $\mathfrak{B}_n$	159
§ 26. L.T.'s that are Hermitian or normal in some $\mathfrak{B}'_n$	164
§ 27. Application to the dynamical theory of small oscillations	166
