Preface to the New Edition	xiii
Preface	xv

Introduction: WHAT IS ANATOMY? 1

- 1** Anatomical Terminology 5
- 2** Bones, Muscles, and Joints 13

HEAD AND NECK REGION 19

- 3** The Skull 19
- 4** Base of the Skull and Its Attachments 25
- 5** Muscles of the Face and Jaw 35
- 6** Suspensory Muscles of the Larynx 41
- 7** The Tongue 47
- 8** Muscles of the Palate 51
- 9** Muscles of the Throat 55
- 10** The Larynx 59

SPINE AND TRUNK REGION 67

- 11** Anterior Muscles of the Cervical Spine 67
- 12** The Vertebrae of the Spine 71
- 13** The Spine and Its Supporting Ligaments 81

- 14** Muscles of the Back: Deep Layers 87
- 15** Muscles of the Back: Middle
and Superficial Layers 97
- 16** Muscles Attaching to the Front of the Spine 107

THORAX AND ABDOMEN 111

- 17** The Thorax and Muscles of Respiration 111
- 18** The Abdominal Muscles 123
- 19** Suspensory Muscles of the Thorax 127
- 20** The Spiral Musculature of the Trunk 135

SHOULDER GIRDLE AND UPPER LIMB 139

- 21** The Shoulder Girdle 139
- 22** Muscles of the Arm and Shoulder 149
- 23** Muscles of the Forearm 157
- 24** Muscles of the Hand and Wrist 163
- 25** Intrinsic Muscles of the Hand 175

PELVIS AND LOWER LIMB 181

- 26** The Pelvic Girdle 181
- 27** Muscles of the Pelvis and Hip 193
- 28** Muscles of the Thigh 203
- 29** The Knee, Lower Leg, and Ankle 213
- 30** Muscles of the Ankle and Foot 223
- 31** Intrinsic Muscles of the Foot 237

Index 247

About the Author 259

Illustrations

- Fig. 1. Anatomical planes 4
- Fig. 2. Anatomical directions 7
- Fig. 3. The skull 20
- Fig. 4. The base of the skull 22
- Fig. 5. Flexors and extensors attaching to base of skull 28
- Fig. 6. Muscles supporting hyoid bone and larynx 31
- Fig. 7. Base of the skull and muscles of the throat 32
- Fig. 8. Muscles and joint of jaw 34
- Fig. 9. Muscles of facial expression 36
- Fig. 10. Muscles of the jaw 39
- Fig. 11. Suspensory muscles of the larynx 42
- Fig. 12. Suspensory muscles of the larynx (cont.) 43
- Fig. 13. The tongue 48
- Fig. 14. Muscles on the floor of mouth 49
- Fig. 15. Muscles of palate 53
- Fig. 16. Muscles of the throat 56
- Fig. 17. The pharynx 57
- Fig. 18. The larynx 61
- Fig. 19. Intrinsic muscles of the larynx 63
- Fig. 20. Anterior muscles of cervical spine 68
- Fig. 21. Vertebral column 70

- Fig. 22. The vertebrae and spine 73
- Fig. 23. Atlas and axis (C1 and C2) 76
- Fig. 24. The skull and head/neck joints 79
- Fig. 25. Ligaments of the spine 80
- Fig. 26. Lower spine showing pinched disc 84
- Fig. 27. Back muscles: 1st layer (transversospinalis muscles) 86
- Fig. 28. Back muscles: 1st layer (cont.) 89
- Fig. 29. The sub-occipital muscles 91
- Fig. 30. Back muscles: 2nd layer (sacrospinalis or erector spinae) 94
- Fig. 31. Back muscles: 3rd layer 98
- Fig. 32. Back muscles: 4th layer 101
- Fig. 33. Back muscles: 5th (superficial) layer 102
- Fig. 34. Muscles attaching to the front of the spine 106
- Fig. 35. The rib cage 110
- Fig. 36. The costovertebral joints 113
- Fig. 37. Ribs during exhalation and inhalation 115
- Fig. 38. The intercostal muscles 117
- Fig. 39. Transversus thoracis 118
- Fig. 40. The diaphragm 121
- Fig. 41. The abdominal muscles 122
- Fig. 42. Rectus abdominis muscle 125
- Fig. 43. The scalene muscles 128
- Fig. 44. Suspensory muscles of the thorax 130
- Fig. 45. Muscles of the thorax (cont.) 132
- Fig. 46. Spiral musculature of the trunk 134

- Fig. 47. Joints of shoulder girdle 138
- Fig. 48. Scapula and shoulder joint 141
- Fig. 49. Trapezius, teres major, and latissimus dorsi 143
- Fig. 50. Scapula muscles 145
- Fig. 51. Serratus anterior and pectoral muscles 147
- Fig. 52. The rotator cuff muscles 148
- Fig. 53. The deltoid muscle 151
- Fig. 54. Flexors of the arm 153
- Fig. 55. Triceps brachii muscle 154
- Fig. 56. Bones of elbow and forearm 156
- Fig. 57. Supinators and pronators of the forearm 160
- Fig. 58. Bones of wrist and hand 162
- Fig. 59. Joints of the wrist 165
- Fig. 60. Joints of the thumb 167
- Fig. 61. Extensors and flexors of wrist 169
- Fig. 62. Flexors of digits 171
- Fig. 63. Extensors of digits 173
- Fig. 64. Intrinsic muscles of the thumb 176
- Fig. 65. Intrinsic muscles of the little finger 178
- Fig. 66. Interossei and lumbricals 179
- Fig. 67. The pelvis, the right innominate bone 183
- Fig. 68. Landmarks of the pelvis 185
- Fig. 69. The hip joint and femur 187
- Fig. 70. Ligaments of the pelvis 190
- Fig. 71. Ligaments of the hip joint 191
- Fig. 72. The iliopsoas muscle 194
- Fig. 73. The pelvic diaphragm 196

- Fig. 74. The deep muscles of the hip 198
- Fig. 75. The gluteals 200
- Fig. 76. The adductors 202
- Fig. 77. Muscles of the thigh 205
- Fig. 78. The quadriceps muscles 207
- Fig. 79. The hamstring muscles 209
- Fig. 80. The knee joint 212
- Fig. 81. Bones of lower leg 214
- Fig. 82. The ankle joint 216
- Fig. 83. Ligaments of the ankle 219
- Fig. 84. Bones of foot 221
- Fig. 85. Joints of the foot 225
- Fig. 86. Anterior muscles of the leg 229
- Fig. 87. Lateral muscles of the leg (peroneal muscles) 231
- Fig. 88. Muscles on the back of the leg 232
- Fig. 89. Muscles on the back of the leg (cont.) 233
- Fig. 90. Intrinsic extensors of the foot 236
- Fig. 91. Interossei muscles 239
- Fig. 92. Intrinsic muscles of the little toe 240
- Fig. 93. Intrinsic muscles of the big toe 241
- Fig. 94. Intrinsic flexors of the toes 243
- Fig. 95. Arches of the foot 245
