

CONTENTS

	PAGE
INTRODUCTION	1
PREPARATION OF SAMPLES FOR ANALYSIS	1
DECOMPOSITION AND SOLUTION OF MINERALS AND ORES	2
SEPARATION OF URANIUM IN SOLUTION FROM OTHER METALS	3
(a) Standard chemical method	3
(b) Liquid-liquid solvent extraction method	3
(c) Solvent extraction method in combination with cellulose adsorbent	4
(d) Method based on separation with sodium carbonate	4
(e) Micro method using solvent extraction in combination with absorbent paper strips	5
DETERMINATION OF URANIUM	5
(a) Volumetric method	6
(b) Colorimetric method	6
(c) Polarographic method	6
WORKING DETAILS OF ANALYTICAL PROCEDURES	7
