CONTENTS

1. Introduction to Removable Partial Dentures ____ 7
1.1 Definition of Removable Partial Dentures ____ 7
1.2 Indications and Contraindications for Removable Partial Dentures ____ 7
1.3 Classification of Removable Partial Dentures ____ 8
1.4 Summary ____ 10

2. Structural Components of Removable Partial Dentures ____ 11
2.1 Base of the Denture ____ 11
2.2 Retainers (Anchoring Elements) ____ 12
2.2.1 Clasps ____ 13
2.2.1.1 Wrought Wire Clasps ____ 13
2.2.1.2 Cast Alloy Clasps (Supporting/Three Arm Clasps) ____ 14
Ney Clasp System ____ 19
Supplementary Clasps ____ 23
2.2.2 Attachments ____ 26
2.2.3 Retentive Bars ____ 31
2.2.4 Telescopic (Conus) Crowns ____ 33
2.3 Connectors ____ 34
2.4 Stabilizing Elements (Indirect Retainers) ____ 37
2.4.1 Statics of Removable Partial Dentures ____ 39

3. Treatment Plan ____ 45
3.1 Medical History ____ 45
3.2 Clinical Examination ____ 46
3.3 Diagnosis ____ 46
3.4 Preparative Procedures ____ 46

4. Fabrication of Removable Partial Dentures ____ 50
4.1 Clinical Phase ____ 50
4.1.1 Impression Taking ____ 50
4.1.2 Study Models ____ 51
4.1.3 Registration or Reconstruction of Intermaxillary Relationships ____ 52
4.1.4 Trying of the Denture Model ____ 53
4.2 Laboratory Phase ____ 53
4.2.1 Removable Partial Dentures with Cast Alloy Clasps ____ 53
4.2.1.1 Manufacture of the Metal Framework ____ 53
Analysis of the Models (Surveying) ____ 54
Ney System ____ 57
Analog System ____ 57
Duplication ____ 59
Modeling, Investing, Casting ____ 61
4.2.1.2 Fabrication of the Resin Components ____ 61

5. Delivery of the Denture ____ 62
5.1 Delivering the Removable Partial Denture ____ 62
5.2 Patient Instructions and Education ____ 63
5.3 Adaptation to the Removable Partial Denture ____ 64

6. Repairs of Removable Partial Dentures ____ 65
