

# Table of Contents

## 1 Introduction 1

- Ultrasound Basics 2
- Different Probes for Different Applications 2
- Using US Probes 3
- Appearance of Tissues in US Images 5
- Basic “Knobology” and Image Optimization 7

## 2 Basic Ultrasound Physics 9

- Sound Waves 10
- Attenuation 13
- US Probes 15
- Producing an Image 18
- Specular and Diffuse Reflection 20
- Bioeffects of US Energy 24

## 3 Back 25

- Lumbar Spine 26**
  - Review of the Anatomy 26
  - Technique 27
- Cervical Spine and Greater Occipital Nerve 32**
  - Review of the Anatomy 32
  - Technique 33

## 4 Upper Limb 37

- Shoulder 38**
  - Review of the Anatomy 38
  - Technique 40

### **Brachial Plexus 48**

- Review of the Anatomy 48
- Technique 49

### **Arm 53**

- Review of the Anatomy 53
- Technique 55

### **Elbow 61**

- Review of Anatomy 61
- Technique 63

### **Forearm, Wrist, and Hand 72**

- Review of the Anatomy 72
- Technique 74

## 5 Lower Limb 91

### **Proximal Thigh and Inguinal Region 92**

- Review of the Anatomy 92
- Technique 95

### **Gluteal Region 103**

- Review of the Anatomy 103
- Technique 105

### **Thigh 110**

- Review of the Anatomy 110
- Technique 112

### **Knee 123**

- Review of the Anatomy 123
- Technique 126

### **Leg 136**

- Review of the Anatomy 136
- Technique 139

### **Ankle and Foot 147**

- Review of the Anatomy 147
- Technique 151

## 6 Thorax: Chest Wall and Pleura; Breast 165

### **Chest Wall and Pleura 166**

Review of the Anatomy 166

Technique 168

### **Breast 173**

Review of the Anatomy 173

Technique 174

## 7 Heart 179

Review of the Anatomy 180

Technique 184

## 8 Abdomen 193

### **Abdominal Wall 194**

Review of the Anatomy 194

Technique 196

### **Peritoneum, Gastrointestinal Tract, and Liver 199**

Review of the Anatomy 199

Technique 203

### **Gallbladder 212**

Review of the Anatomy 212

Technique 213

### **Spleen and Kidneys 216**

Review of the Anatomy 216

Technique 218

### **Pancreas 222**

Review of the Anatomy 222

Technique 223

### **Abdominal Vessels 225**

Review of the Anatomy 225

Technique 228

## 9 Female Pelvis 237

Review of the Anatomy 238

Technique 240

## 10 Male Pelvis 245

Review of the Anatomy 246

Erection and Ejaculation 249

Technique 250

## 11 Neck, Face and Eye 257

### **Neck 258**

Review of the Anatomy 258

Technique 264

### **Viscera of the Neck 271**

Review of the Anatomy 271

Technique 273

### **Face 278**

Review of the Anatomy 278

Technique 282

### **Eye and Orbit 283**

Review of the Anatomy 283

Technique 284

## 12 Focused Assessment with Sonography for Trauma (FAST) 291

Overview of Focused Assessment With Sonography for Trauma 292

Review of the Anatomy 293

**Right Upper Quadrant 294**

Technique 294

**Left Upper Quadrant 297**

Technique 297

**Suprapubic Views of Abdomen/Pelvis 299**

Technique 299

Heart and Pericardial Space 303

## **13** Clinical Applications 307

Central Venous Catheterization 308

Lumbar Puncture 311

Pericardiocentesis 314

Procedure (Parasternal Approach) 316

Alternative Method: Subxiphoid and Apical Approach 317

Knee Joint Aspiration 318

Shoulder Aspiration 320

Elbow Joint Aspiration 323

## Answers to Multiple Choice Questions 327

**GLOSSARY 329**

**INDEX 351**
