PREFACE TO SECOND EDITION .....	vii
PREFACE TO FIRST EDITION .....	ix
DEFINITION OF TERMS AND EXPLANATORY NOTES .....	xxiii
I GENERAL METHODS .....	1
General Introduction .....	1
Sampling .....	6
Net Contents .....	11
Preparation of Sample .....	14
Determination of Specific Gravity .....	14
Determination of Moisture .....	21
Determination of Ash .....	30
Extractions and Separations .....	39
Selected References .....	45
II PHYSICAL CHEMICAL METHODS .....	46
Refractometry .....	46
Colorimetry .....	48
Spectrometry .....	61
Polarimetry .....	63
Chromatography .....	66
Ion Exchange .....	69
Electrometric Determinations .....	71
Food Rheology .....	83
Viscosity .....	83
Surface Tension Apparatus .....	87
Polarography .....	88
Freezing Point Determinations .....	96
Selected References .....	101
III COLORING MATTERS IN FOODS .....	102
Classification .....	103
Pure Dye Percentage .....	108
Water Soluble Food Colors .....	108
Oil Soluble Food Colors .....	117
Short Method for Water Soluble Acid Dyes .....	119
Systematic Examination of Water-Soluble Dyes .....	120
Separation of the Permitted Coal-Tar Water-Soluble Dyes .....	123
Identification of Dyes by Spot Tests .....	127
Common Mixtures .....	127
Tartrazine .....	131
Short Method for Oil-Soluble and Natural Coloring Matters .....	132

CHAPTER	PAGE
Separation of Yellow AB and Yellow OB .....	133
Separation of Oil-Soluble Dyes .....	134
Color on Citrus Fruits .....	136
Method for Detection of Artificial Color in Olive Oil .....	136
Separation of Natural Coloring Matters .....	138
Carotene .....	138
Beet Dye in Tomato Products .....	140
Caramel .....	140
Group Separation of Mixtures of FD&C, DEC, and Ext. D&C Colors.....	142
Mineral Colors .....	147
Selected References .....	148
 IV CHEMICAL PRESERVATIVES IN FOODS .....	 149
Boric Acid and Borates .....	153
Sulfur Dioxide and Sulfites .....	155
Fluorides .....	159
Iodates .....	160
Free Chlorine .....	161
Oxidizing Agents .....	161
Peroxides .....	161
Organic Preservatives .....	162
Formaldehyde .....	163
Formic Acid .....	165
Ether Extractive Preservatives .....	165
Lactic Acid .....	166
Abrastol .....	167
Separation of Organic Preservatives and Sweetening Agents .....	168
Volatile Fatty Acids in Bakery Products .....	170
Monochloroacetic Acid .....	171
Thiourea .....	173
2-Aminopyridine in Oranges .....	174
Quaternary Ammonium Compounds .....	176
Selected References .....	181
 V METALS IN FOODS .....	 182
Preparation of Ash .....	183
Heavy Metals .....	184
Arsenic .....	184
Antimony .....	192
Lead .....	198
Mercury .....	218
Cadmium .....	221
Thallium .....	224
Zinc .....	226
Copper .....	232
Tin .....	234
Selected References .....	236

# CONTENTS

CHAPTER	PAGE
VI CHEMICAL FOOD POISONING .....	237
Role of Poisons .....	237
Acute and Chronic Poisoning .....	238
Occurrence of Metallic and Nonmetallic Contaminants in Food .....	239
Detection and Determination .....	245
Systematic Method for Chemical Food Poisons .....	247
Detection of Poisons in Milk and Water .....	255
Organoleptic Analysis .....	256
Chemical Examinations .....	256
Selected References .....	260
VII MILK AND CREAM .....	261
Composition .....	261
Composite Sample .....	264
Specific Gravity .....	265
Fat .....	266
Total Solids .....	271
Total Protein .....	271
Casein .....	271
Albumin .....	272
Minor Nitrogenous Components .....	272
Ash .....	273
Acidity .....	273
Lactose .....	274
Added Water .....	274
Rapid Method .....	274
Preservatives .....	276
Foreign Fat .....	276
Chloride Test .....	276
Heat Stability Tests .....	277
Pasteurized Milk .....	278
Homogenized Milk .....	286
Soft Curd Milk .....	287
Reconstituted Milk .....	288
Certified Milk .....	293
Vitamin D Milk .....	293
Vitamin Fortified Milk .....	294
Cream .....	294
Fat .....	296
Acidity .....	298
Determinations of Other Components of Cream .....	298
Thickening Agents .....	298
Reconstituted Cream .....	303
Foreign Fat .....	305
Sour Cream .....	305
Plastic Cream .....	306
Whipped Cream .....	306
Selected References .....	307

CHAPTER	PAGE
VIII MILK PRODUCTS .....	309
Butter .....	309
Moisture .....	310
Fat by Difference .....	310
Fat .....	311
Salt .....	312
Jacobs Rapid Crucible Method .....	312
Total Acids in Butter .....	313
Foreign Fat .....	313
Renovated Butter and Oleomargarine .....	313
Biacetyl and Acetyl Methyl Carbinol .....	314
Pasteurization .....	317
Butter Oil and Ghee .....	317
Cheese .....	317
Definitions .....	319
Moisture .....	325
Fat .....	326
Protein .....	328
Other Components .....	328
Pasteurization .....	328
Evaporated Milk .....	333
Rapid Method for the Analysis of Evaporated Milk .....	335
Fat .....	335
Concentrated Milk .....	335
Condensed Milk .....	336
Fat .....	336
Analysis .....	337
Skim Milk .....	337
Fat .....	337
Buttermilk .....	338
Condensed Buttermilk .....	339
Whey .....	339
Fat .....	339
Fermented Milk .....	340
Filled Milk .....	341
Imitation Milk .....	341
Milk Beverage .....	341
Dried Milk Products .....	342
Moisture .....	343
Solubility Index .....	343
Malted Milk Powder .....	344
Fat .....	344
Malted Milk Drink .....	345
Ice Cream .....	346
Fat .....	347
Acidity .....	353
Total Food Solids Per Given Volume .....	353
Overrun .....	354
Foreign Fat .....	357

CHAPTER	PAGE
Milk Sherbet .....	357
Ices .....	358
Acidity .....	358
Detection of Milk Powder in Foods .....	358
Selected References .....	364
 IX OILS AND FATS .....	 365
Specific Gravity .....	371
Refractive Index .....	372
Melting Point .....	372
Titer Test .....	372
Physical Aspects .....	373
Iodine Value .....	373
Thiocyanogen Value .....	375
Saponification Value .....	380
Hegner Value .....	381
Reichert-Meissl and Polenske Value .....	382
Kirschner Value .....	383
Saturated and Unsaturated Fatty Acids .....	384
Free Fatty Acids or Acid Value.....	385
Cholesterol and Sitosterol .....	386
Unsaponifiable Matter .....	387
Rancidity .....	390
Stability Tests .....	394
Tristearin in Unhydrogenated Pork Fats .....	397
Peanut Oil .....	399
Cottonseed Oil .....	400
Sesame Oil .....	401
Nitric Acid Test .....	402
Tea Seed Oil .....	402
Squalene Content .....	404
Valenta Test .....	407
Triacetin .....	407
Interpretation of Results .....	407
Analytical Methods for Finished Fat Products .....	409
Smoke, Flash, and Fire Points Applicable to Animal and Vegetable Oils and Fats .....	410
Consistency of Shortenings .....	414
Air Incorporation .....	416
Selected References .....	417
 X SUGAR FOODS AND CARBOHYDRATES .....	 418
Clarifiers .....	420
Monosaccharides .....	423
Disaccharides .....	426
Polysaccharides .....	428
Chemical Reactions .....	429
Quantitative Methods .....	434
Sucrose .....	442

CHAPTER	PAGE
Chemical Methods .....	442
Optical Methods .....	442
International Sugar Commission Rules .....	443
Sucrose by Polarization Before and After Inversion with Hydrochloric Acid .....	445
Sucrose by the Double Dilution Method.....	446
Sugar Mixtures .....	447
Commercial Glucose .....	458
Honey .....	460
Preparation of Sample .....	460
Polarization .....	461
Reducing Sugars .....	462
Calculation of Sugar Percentages .....	462
Dextrose .....	463
Commercial Glucose .....	463
Dextrin .....	464
Commercial Invert Sugar .....	464
Diastase .....	465
Maple Products .....	465
Preparation of Sample .....	466
Lead Number .....	467
Rapid Conductivity Method .....	468
Cowles Malic Acid Value .....	468
Interpretation of Results, Maple Products .....	470
Confectionery .....	471
Moisture .....	473
Dextrose .....	473
Paraffin .....	474
Alcohol .....	474
Shellac .....	474
Selected References .....	475
 XI GUMS, CEREALS, STARCH, OTHER POLYSACCHARIDES, FLOUR, AND BREAD .....	 476
Gums .....	476
Acacia .....	477
Ghatti .....	478
Karaya .....	478
Tragacanth .....	478
Agar .....	479
Irish Moss .....	480
Algin .....	480
Locust Kernel .....	481
Quince Seed .....	481
Psyllium Seed .....	482
Flaxseed Gum .....	483
Pectin .....	483
Reactions of the Gums .....	485
Microscopic Examination .....	488
Volatile Acidity .....	490

CHAPTER

PAGE

Detection of Gums in Food Products .....	491
Separation of Gums .....	492
Stabilizers in Frozen Desserts .....	494
Cereal .....	497
Starch .....	498
Pentosans .....	501
Arabans .....	502
Galactan .....	502
Mannans .....	503
Uronic Acids .....	504
Flour .....	504
Moisture .....	504
Gluten .....	505
Absorption .....	505
Bleached Flour .....	505
Starch .....	506
Rheological Methods .....	506
Selected References .....	508

XII JAMS, JELLIES, AND FRUITS .....

509

Jams and Preserves .....	509
Jelly .....	512
Fruit Butters .....	514
Preparation of Solution .....	517
Total Solids .....	517
Fruit Juice Ingredient .....	519
Fruit Substance in Fruit Butters .....	519
Alcohol Precipitate .....	521
Pectic Acid .....	522
Total Acidity .....	523
Ash .....	523
Interpretation of Results .....	524
Examination of Fruits and Jams by Lead Precipitation .....	531
Fruits .....	540
Maturity Test for Oranges and Grapefruit .....	544
Maturity Tests for Apples .....	545
Citric Acid .....	545
Tartaric Acid ..	549
Hardness Tester .....	553
Frozen Fruits and Fruit Products .....	554
Selected References .....	558

XIII VEGETABLE PRODUCTS .....

559

Blanching Adequacy .....	561
Alcohol-Insoluble Solids .....	563
Sugar .....	564
Maturity in Frozen Vegetables .....	566
Canned Peas .....	568
Canned Green Beans .....	572

CHAPTER	PAGE
Canned Wax Beans .....	576
Canned Corn .....	576
Tomato Products .....	580
Nuts and Nut Products .....	584
Fat .....	584
Selected References .....	585
XIV SPICES, FLAVORS, AND CONDIMENTS .....	586
Extracts .....	586
Volatile Oil .....	590
Crude Fiber .....	595
Starch .....	597
Microscopic Examination .....	598
Mayonnaise and Salad Dressing .....	598
Fat .....	600
Acidity .....	601
Sugars .....	601
Mineral Oil in Mayonnaise and Salad Dressing .....	602
Calculation of Composition .....	603
Mustard for Mayonnaise .....	603
Flavoring Extracts .....	603
Vanilla Extract .....	606
Summary of Relative Flavoring Strengths .....	608
Lead Number .....	612
Vinegar .....	614
Glycerol .....	617
Free Mineral Acids .....	619
Detection of Artificial Vinegar .....	620
Selected References .....	624
XV NONALCOHOLIC BEVERAGES AND ALLIED PRODUCTS .....	625
Coffee .....	625
Caffeine .....	627
Chicory .....	630
Tea .....	630
Water Extract .....	630
Caffeine .....	630
Tannin .....	632
Ash .....	633
Cacao Products .....	633
Definitions of Cacao Products .....	634
Fat .....	641
Refractive Index Method for Total Fat in Cacao Products .....	642
Fat in Milk Chocolate .....	643
Milk Proteins .....	644
Estimation of Butterfat and Milk Product Content .....	644
Total Alkaloids .....	645
Theobromine .....	646
Caffeine .....	650

CHAPTER	PAGE
Carbonated Beverages .....	651
Selected References .....	652
XVI MEAT, MEAT PRODUCTS, FISH, AND EGGS .....	653
Composition of Meat .....	656
Preparation of Sample .....	658
Moisture .....	659
Protein .....	659
Added Water .....	660
Fat .....	661
Ash .....	664
Cold Water Extract .....	664
Coagulable Proteins ..	665
Proteoses .....	665
Proteose, Peptone, and Gelatin Nitrogen ..	665
Creatine, Folin Method .....	666
Meat Bases .....	666
Non-Protein Nitrogen .....	667
Amino Acids .....	667
Starch .....	667
Hemoglobin in Meat Scraps and Tankage .....	669
Horse Meat .....	670
Detection of Added Gelatin in Smoked Meat Products ..	672
Soybean Flour .....	673
Fish .....	675
Oil .....	675
Chloride .....	676
Detection of Phenol in Smoked Fish .....	677
Oysters .....	677
Raw Oysters .....	678
Canned Oysters .....	681
Canned Shrimp .....	682
Eggs and Egg Products .....	683
Whole Eggs .....	684
Analysis of Eggs .....	684
Fat .....	685
Lipoids and Lipoid Phosphoric Acid ..	686
Distinction Between Egg Yolk and Vegetable Lecithin ..	687
Glycerol .....	688
Glycerol in Presence of Sugar .....	689
Sugar .....	690
Salt .....	690
Quality Factors .....	690
Selected References .....	692
XVII VITAMINS .....	693
Vitamin A .....	697
Thiamine—Vitamin B <sub>1</sub> .....	705
Riboflavin—Vitamin B <sub>2</sub> .....	713

CHAPTER	PAGE
Niacin and Niacin Amide .....	715
Pyridoxine—Vitamin B <sub>6</sub> .....	716
Inositol .....	719
Pantothenic Acid .....	720
Aminobenzoic Acid .....	722
Biotin .....	722
Folic Acid .....	723
Vitamin B <sub>12</sub> .....	724
Ascorbic Acid—Vitamin C .....	724
Dehydroascorbic Acid .....	732
Vitamins D .....	734
Vitamins E .....	738
Vitamins K .....	741
Selected References .....	742
XVIII INORGANIC DETERMINATIONS .....	743
Fluoride .....	743
Selenium .....	748
Phosphorus .....	751
Sulfates .....	755
Iodide .....	756
Chloride .....	757
Nitrates and Nitrites .....	760
Nitrates in Flesh Foods .....	761
Nitrite .....	763
Ammonia .....	766
Sodium .....	767
Potassium .....	769
Iron .....	771
Manganese .....	776
Nickel .....	778
Cobalt .....	780
Calcium .....	781
Aluminum .....	782
Selected References .....	783
XIX FLAVOR AND QUALITY MEASUREMENT .....	784
Flavor Acceptance .....	784
Flavor Measurement .....	787
Selected References .....	794
XX FILTH AND DECOMPOSITION IN FOODS .....	795
Examination of Whole Foods for Gross Insect and Rodent Contamination .....	795
Filth Recovery Methods .....	803
Maggot Recovery .....	806
Removal of Undesirable Components Before Extraction of Filth .....	807
Oil Clearing and Sedimentation for Excreta .....	810
General Method .....	811
