Supply quality in eAuctions	10
Relationships with regional suppliers	10
Signing the contract	11
Compliance with terms and conditions	11
Compliance in eAuctions versus traditional auctions	12
Summary	12

Comment and opinion

Experience of municipalities with eAuctions	13
Czech municipalities	14
Ostrava: The best housekeeper is the most economical	14
Bruntál: At first eAuctions were met with scepticism	16
Holic: The original opponents of eAuctions are now among their main supporters	17
Cheb: Savings in the tens of millions	18
Kravaře: We have had no major problems with suppliers	19
Bystřice pod Hostýnem: Quality counts	19
Nové Město na Moravě: The system is transparent and shields us from supplier pressure	20
Orlová: Everything depends on the consistency of the promoter	21
Pelhřimov: eAuctions do not affect the quality of the work	22
Praha 2: The key benefit is the clarity of the results	23
Tábor: The same quality for a lower price	24
Tišnov: The winners of our eAuctions have delivered and fulfilled their contracts	25
Znojmo: eAuctions are also appreciated by the public	26
Žďár nad Sázavou: eAuctions are a requirement of the Town Council	27

Slovak municipalities28
Bratislava: Savings in some tenders have reached 70%	28
Košice: Defining quality is sometimes impossible	29
Levice: We initially met with indifference from local firms	30
Nitra: Suppliers trust eAuctions unconditionally.	31
Šaľa: Regional suppliers tend to be more expensive than those from further afield	32
Analysis	
Introduction to data, sample and scope of the analysis.33
Numbers and financial value of eAuctions	34
Average financial value of eAuctions	34
eAuctions by commodity group	35
eAuctions carried out in Czech and Slovak municipalities by commodity group	36
eAuctions in commodity groups by financial value	37
Construction tenders and eAuctions	38
Savings.39
Savings and municipal eAuctions	39
eAuction savings by category	40
Savings by size of municipality	41
Public tenders carried out by eAuction by value	43
And a couple of interesting things.	44
