1	Introduction	1
1.1	Situating Art History in the Age of Intelligent Technologies	1
1.2	Scope, Structure, and Methodological Approach	11
	References	17
2	Enhancing Inclusivity Through Visitor Experiences	21
2.1	Museums in the Digital Age: From Repository to Dynamic Engagement	21
2.2	Accessibility and Supporting Linguistic and Neurodiverse Visitors	27
2.3	Intelligent Recommendation Systems: Personalized Museum Journeys	30
2.4	Multisensory Engagement: Augmented Reality in Global Contexts	36
2.5	Ethical Dimensions in Museum Contexts: Privacy, Consent, and Fairness	39
	References	43
3	Augmenting Art Historical Research	47
3.1	The Intersection of AI and Art History: Paradigm Shifts and Opportunities	47
3.2	Generative Tools in Scholarly Research: Data Aggregation to Interpretation	55
3.3	Computational Art Analysis: Case Studies and Emerging Methodologies	64
3.4	Facilitating Interdisciplinary Collaborations Through Smart Platforms	70
3.5	Future Trajectories in AI-Assisted Art Historical Research	77
	References	81

4	Copyright and Legal Frameworks in Art and Scholarship	85
4.1	AI-Generated Content and the Challenges to Authorship and Originality	85
4.2	Comparative Legal Perspectives: U.S. Fair Use Versus EU Text and Data Mining	94
4.3	Dataset Ethics: Scraping, Licensing, and Artist Consent	99
4.4	Protecting Intellectual Property: Strategies for Museums and Researchers	102
4.5	Best Practices for Art Historians Working with AI	106
	References	111
5	Administrative Leadership and Strategic Management	115
5.1	The Evolving Role of the Art Historian as Administrator	115
5.1.1	Efficient Curriculum Planning and Program Assessment	121
5.1.2	Data-Driven Decision-Making: Analytics for Institutional Excellence	133
5.1.3	Ensuring Privacy and Compliance: Ethical Use of Data in Administration	136
5.1.4	Case Studies: Successful Integration in Departmental Leadership	140
	References	145
6	Digital Art History Pedagogy: Prompt Engineering	149
6.1	Theoretical Foundations: How Prompt Engineering Enhances Learning	149
6.2	Multimodal Approaches: Teaching Formal Analysis	155
6.3	Scaffolded Assignments: Case Study of Donatello's Bronze <i>David</i>	171
6.4	Developing Critical Thinking Skills Through Interactive Methods	177
6.5	Assessing Pedagogical Outcomes and Student Engagement	182
	References	187
7	Immersive Learning with the Leonardo da Vinci AI-Clone Tutor ...	193
7.1	Extended Reality and AI Integration: Pedagogical Principles and Possibilities	193
7.2	Designing the Leonardo da Vinci AI-Clone: Technical and Conceptual Processes	201
7.3	Interactive and Dialogic Instruction: Examples from the Virtual Classroom	208
7.4	Challenges in Implementation: Technical and Dataset Considerations	213
7.5	Future Directions for AI-Powered Avatars in Art Historical Education	216
	References	218

8 Conclusion	221
8.1 Integrating Intelligent Technologies: Key Insights from Practice and Theory	221
8.2 Ethical and Practical Challenges: Balancing Innovation with Responsibility	224
8.3 Reframing Professional Practice in Art History and Museums	227
8.4 Toward Sustainable, Inclusive, and Reflective Adoption	230
8.5 Recommendations for Future Research, Policy, and Implementation	233
8.6 The Evolving Horizon: Envisioning the Next Chapter for the Field	235
References	237
