<i>Preface: Vasodilators in heart failure</i>	7
Introduction	11
Problems in the long-term vasodilator treatment of heart failure S.H. TAYLOR	13
Long-term isosorbide dinitrate for the treatment of refractory heart failure W.D. BUSSMANN	19
Short-term and long-term effects of oral hydralazine on left ventricular pump function and renal haemodynamics in chronic left heart failure D. MATHEY	23
Discussion	29
Long-term results of treatment of severe chronic heart failure with dihydralazine P. MORAND	30
Discussion	40
Sustained benefit of prazosin therapy in severe congestive heart failure F. BURKART	41
Discussion	49
Treatment of refractory congestive heart failure with angiotensin converting enzyme inhibition G.A. TURINI	50
Discussion	60
Long-term vasodilator therapy with hydralazine and nitrates in chronic heart failure B. MASSIE	61
Discussion	62
Effect of sustained-action hydralazine and prenalterol given singly and in combination, in chronic refractory heart failure H. JUST	74
<i>Panel discussion: Vasodilators in the long-term treatment of heart failure: practical guidelines</i>	82
