J. C. Goligher, Emeritus Professor of Surgery, University of Leeds

*Preface* vii

*Contributors* xi

## PART I ANATOMY AND PHYSIOLOGY 1

- 1 Anatomy of the anal sphincters and pelvic floor 3  
B. Wood
- 2 Physiology and pharmacology of the internal anal sphincter 22  
D. E. Burleigh and A. D'Mello
- 3 Faecal continence, defaecation and colorectal motility 42
  - A Physiology of faecal continence and defaecation 42  
M. M. Henry and M. Swash
  - B Colorectal motility 47  
D. Kumar and D. L. Wingate

## PART II INVESTIGATION OF THE PELVIC FLOOR 63

- 4 Anorectal manometry: techniques in health and anorectal disease 65  
N. W. Read and J. J. Bannister
- 5 Electromyography in pelvic floor disorders 88  
M. Swash and S. J. Snooks
- 6 The anal reflex 104  
E. Pedersen
- 7 Nerve stimulation techniques 112
  - A Pudendal nerve terminal motor latency, and spinal stimulation 112  
S. J. Snooks and M. Swash
  - B Electrical stimulation through the scalp of pyramidal tract fibres supplying pelvic floor muscles 125  
P. A. Merton

- 8 Histopathology of the pelvic floor muscles 129  
M. Swash
- 9 Radiology of the pelvic floor 151  
C. I. Bartram and P. H. G. Mahieu
- 10 Clinical evaluation of the pelvic floor 187  
I. P. Todd
- PART III DISORDERS OF THE PELVIC FLOOR AND THEIR  
MANAGEMENT 193**
- 11 Haemorrhoids 195  
A Pathophysiology and clinical features 195  
J. P. S. Thomson and R. J. Leicester  
B Treatment 209  
R. W. Beart, Jr
- 12 Faecal incontinence 217  
A Social and economic factors 217  
D. A. Mandelstam  
B Pathogenesis and clinical features 222  
M. M. Henry and M. Swash  
C Treatment 228  
(i) Postanal repair 228  
M. M. Henry and J. P. S. Thomson  
(ii) Gracilis muscle transposition 234  
M. L. Corman  
(iii) Neonatal and paediatric incontinence 242  
R. C. M. Cook  
(iv) Anal sphincter repair 252  
P. R. Hawley and M. Burke  
(v) Free muscle transplantation 259  
L. Hakelius  
(vi) Biofeedback 268  
M. M. Schuster
- 13 Solitary ulcer syndrome of the rectum: its relation to mucosal  
prolapse 282  
K. R. P. Rutter
- 14 Descending perineum syndrome 299  
M. M. Henry
- 15 Rectal prolapse 303  
A Pathogenesis and clinical features 303  
D. J. Schoetz, Jr and M. C. Veidenheimer  
B Treatment 308  
J. D. Watts, D. A. Rothenberger and S. M. Goldberg
- 16 Pathogenesis and treatment of anal fissure 340  
R. W. Motson and M. A. Clifton
- 17 Constipation: pathophysiology, clinical features and treatment 350  
J. E. Lennard-Jones

- 18 Sphincter sparing colo-anal surgery 376  
R. J. Nicholls
- 19 Chronic perianal pain 388  
M. Swash
- Index* 393
