

Table of Contents

I Introduction: Spontaneously Hypertensive Rats and Classification of Hypertension

Discovery and Development of the Spontaneously Hypertensive Rat K. AOKI. With 4 Figures	3
Three-Way Classification of Hypertension: Gene Hypertension, Environment Hypertension, and Disease Hypertension K. AOKI. With 11 Figures	9

II Calcium Movement During Contraction and Relaxation in Arterial Smooth Muscle

Membrane Potential and Calcium Channels in Arterial Smooth Muscle Cells M.T. NELSON, N.B. STANDEN, J.E. BRAYDEN, J.F. WORLEY III. With 5 Figures	37
Excitatory Agonists and Ca-Permeable Channels in Arterial Smooth Muscle Cells I. DECLERCK, G. DROOGMANS, R. CASTEELS. With 8 Figures	45
Arterial Smooth Muscle Contraction Is Dependent on Sustained Increases in Myoplasmic Ca ²⁺ C.M. REMBOLD, R.A. MURPHY. With 1 Figure	57
Role of Second Messengers on Mobilization of Calcium and Related Events in Vascular Smooth Muscles K. KITAMURA, T. ITOH, M. HIRATA, M.C.E. GWEE, H. KURIYAMA.	65
Myogenic Contraction and Relaxation of Arterial Smooth Muscle K. NAKAYAMA, Y. TANAKA. With 6 Figures	83

Relationship Between Cytosolic Calcium Level and Contractile Tension in Vascular Smooth Muscle H. KARAKI, H. OZAKI. With 11 Figures	95
Calcium Mobilization Mechanisms in Smooth Muscle M. ENDO, M. IINO, T. KOBAYASHI. With 4 Figures	111
Sarcoplasmic Reticulum of Mesenteric Arteries Buffers Stimulated Ca^{2+} Entry K. SAIDA, Z. SHENG, C. VAN BREEMEN. With 2 Figures	121
Contraction Induced by Ouabain and Potassium-free Solution in Human Umbilical Arteries K. SATO, K. AOKI. With 5 Figures	127
Pharmacology of Calcium Antagonists in Arterial Smooth Muscle T. GODFRAIND, N. MOREL, M. WIBO. With 7 Figures	137
III Membrane Calcium-Handling Abnormalities of Vascular Smooth Muscle in Spontaneously Hypertensive Rats	
Increased Calcium Permeability of the Membrane of Vascular Smooth Muscle in Spontaneously Hypertensive Rats S. CHAI, R.C. WEBB, D.F. BOHR. With 7 Figures	157
Membrane Potential and Calcium Influx in Vascular Muscle from Spontaneously Hypertensive Rats K. HERMSMEYER, N.J. RUSCH. With 2 Figures	169
Cell Membrane Properties of the Arterial Smooth Muscle from Spontaneously Hypertensive Rats R.C. BHALLA, L.M. BENDHACK, R.V. SHARMA. With 5 Figures	175
Decreased α_1 -Adrenoceptor Reserve in Arteries from Spontaneously Hypertensive Rats M. KOJIMA, K. AOKI, M. ASANO, Y. DOHI, T. MATSUDA. With 5 Figures	191
Diminished β -Adrenoceptor-Mediated Relaxation of Arteries from Spontaneously Hypertensive Rats S. FUJIMOTO, Y. DOHI, K. AOKI, T. MATSUDA. With 7 Figures	203
Changes of Vascular β -Adrenoceptors in Spontaneously Hypertensive Rats: Characterization and Technical Problems C.-Y. KWAN, R.M.K.W. LEE, E.E. DANIEL. With 3 Figures	221

Vascular Mechanisms in Development and Maintenance of Hypertension in Spontaneously Hypertensive Rats M.J. MULVANY. With 7 Figures	239
Effects of Hypertension on Endothelial-Smooth Muscle Cell Interactions in Pressurized Cerebral Arteries G. OSOL, S. KNUTSON, W. HALPERN. With 6 Figures	251
Protective Effects of Calcium Antagonists on Hypertensive Diseases in Heart, Brain, and Kidney of Hypertensive Rats A. KNORR, B. GARTHOFF, C. HIRTH, S. KAZDA, C. LAGUNA, G. LUCKHAUS, J-P. STASCH. With 6 Figures	261
Hemodynamic and Hormonal Responses to Stimuli in Spontaneously Hypertensive Rats: Effects of Chronic Diltiazem Treatment J. YAMAMOTO, H. MATSUBARA. With 7 Figures	271
Mechanism and Consequences of Cellular Calcium Elevation in Hypertension S. KOUTOUZOV, M. BAUDOUIN-LEGROS, S. DURANT, J-L. PAQUET, P. MARCHE, P. MEYER. With 1 Figure	287
 IV Calcium, Magnesium, and Calcium Antagonists in Human Hypertension	
Pressor Effects of Calcium Infusion in the Absence and Presence of a Calcium Antagonist in Subjects with Normotension and Hypertension T. SUZUKI, K. AOKI, K. MIYAGAWA. With 5 Figures	295
Effects of Intravenous Infusion of Magnesium on Hemodynamics in Normotensives and Hypertensives K. MIYAGAWA, T. SUZUKI, K. AOKI. With 1 Figure	309
Marked Blood Pressure Responses to Norepinephrine, Epinephrine, and Angiotensin II in Borderline Hypertension with a Parental History of Hypertension K. AOKI, K. SATO. With 4 Figures	317
Responsiveness to Calcium Antagonists in Essential Hypertension: Pharmacokinetic and Neurohumoral Aspects J.L. REID, R. DONNELLY, P.A. MEREDITH, H.L. ELLIOTT. With 5 Figures	329
Hemodynamic Effects of Calcium Antagonists at Rest and During Exercise in Essential Hypertension: A Comparison Between Verapamil, Diltiazem, Tiapamil, Nifedipine and Nisoldipine P. LUND-JOHANSEN, P. OMVIK. With 4 Figures	339

V Mechanism of Blood Pressure Elevation in Gene (Essential) Hypertension

Calcium Metabolism in Hypertension: Clinical Evidence and Cellular Hypothesis

L.M. RESNICK, J.H. LARAGH. With 9 Figures 355

The History of the Calcium Membrane Theory of Gene (Essential) Hypertension

K. AOKI. With 16 Figures 373

Index of Key Words 403
