Preface	
Rune Rolland, Dev R. Chadha, Wim N.P. Willemsen	xv

SECTION 1: PHARMACOLOGY AND PHYSIOLOGY

Pharmacology and Experimental Basis of Therapy With LHRH Agonists in Women

Juergen Sandow, Hamish M. Fraser, and Franz Geithövel	1
---	----------

Extra Pituitary Actions of LHRH Analogues in Tissues of the Human Female and Investigation of the Existence and Function of LHRH-Like Peptides

H.M. Fraser, T.A. Bramley, W.R. Miller, and R.M. Sharpe	29
---	-----------

Hypothalamic Control of Gonadotropin Secretion in the Human Menstrual Cycle

M. Filicori, C. Flamigni, G. Vizziello, C. Dalpiaz, P. Ferrari, R. Flaminia, N. Santoro, and W.F. Crowley, Jr.	55
--	-----------

Discussion	75
-----------------------------	-----------

SECTION 2: ENDOMETRIOSIS

Etiology and Pathophysiology of Endometriosis

Ivo A. Brosens, Freddy J. Cornillie, and Gloria Vasquez	81
---	-----------

Endometriosis: Clinical Symptoms and Infertility

Steven R. Bayer and Mabelle M. Seibel.	103
--	------------

Management of Endometriosis

Hermann P.G. Schneider, Karl W. Schweppe, Ulrich Cirkel, and Heike Ochs	135
---	------------

Efficacy of Different Modalities of LHRH Agonist (Buserelin) Administration on the Inhibition of the Pituitary-Ovarian Axis for the Treatment of Endometriosis

André Lemay, Rodolphe Maheux, Clément Jean, and Nacia Faure	157
---	------------

A Preliminary Report on the Comparative Use of Buserelin (Hoe 766) and Danazol in the Treatment of Endometriosis: The University of Southern California Experience

Billy Yee	175
---------------------	------------

Effect of LHRH Agonist Therapy in the Treatment of Endometriosis (German Experience)	
Ulrich Cirkel, Karl W. Schweppe, Heike Ochs, and Hermann P.G. Schneider . . .	189
The Effect of LHRH Agonist Therapy in the Treatment of Endometriosis (Dutch Experience)	
A.M.H.W. Franssen, F.M. Kauer, R. Rolland, J.A. Zijlstra, W.N.P. Willemsen, and A.J. van 't Veen	201
Clinical Study on Finding Optimal Dose of a Potent LHRH Agonist (Buserelin) for the Treatment of Endometriosis—Multicenter Trial in Japan	
Hiroshi Minaguchi, Tsuguo Uemura, and Kazuhiro Shirasu	211
The Effect of LHRH Agonist Therapy in the Treatment of Endometriosis (English Experience)	
Rosanne Y. Jelley and Patrick J. Magill	227
Discussions	239
 SECTION 3: ROUND TABLE DISCUSSION	
Round Table Discussion of Endometriosis and Its Treatment	
V.C. Buttram, Jr., I. Brosens, P. Magill, B. Yee, A. Lemay, H. Minaguchi, O. Sugimoto, A.M.H.W. Franssen, U. Cirkel, J. Sandow, J. Schoemaker, H.M. Fraser, F.M. Kauer, H.P.G. Schneider, and M. Filicori	257
 SECTION 4: LEIOMYOMA	
Uterine Leiomyomata—Aetiology, Symptomatology, and Management	
Veasy C. Buttram, Jr.	275
Uterine Leiomyoma: Treatment With LHRH Agonist	
Rodolphe Maheux and André Lemay	297
Uterine Leiomyoma and LHRH Agonist Treatment: A Preliminary Report	
R. Rolland, A.M.H.W. Franssen, W.N.P. Willemsen, and R.S. Corbey	313
Discussion	321
 SECTION 5: CONTRACEPTION	
LHRH Agonist and Contraception	
Gerald Hoffmann, Michael Schommer, Kunhard Pollow, and Marianne von der Ohe	325
Peptide Contraception by Inhibition of Ovulation With Intranasal GnRH Superagonist: Clinical and Metabolic Aspects	
Jens A. Gudmundsson, Christer Bergquist, and Sven Johan Nillius	337
Discussion	353
 SECTION 6: POLYCYSTIC OVARY SYNDROME	
Understanding the Polycystic Ovary Syndrome	
James R. Givens and Bryan R. Kurtz.	355

The Effects of Buserelin on the Hormonal States in PCOD	
W.N.P. Willemsen, A.M.H.W. Franssen, R. Rolland, and H.M. Vemer	377
The Additional Use of Buserelin in hMG-hCG Ovulation Induction in PCO: A Double Blind Controlled Study	
P.G.A. Hompes, H.M. van Weissenbruch, C.W. Burger, and J. Schoemaker . . .	391
Induction of Ovulation in Polycystic Ovarian Disease	
Richard Fleming	401
Discussion	413
 SECTION 7: MISCELLANEOUS	
Endocrinological Aspects of the Premenstrual Syndrome	
Torbjörn Bäckström and Stefan Hammarbäck	421
Hormonal Management of Cycle Disturbances	
Robert W. Shaw	429
Discussion	443
Index	445
