

CURRENT APPLICATIONS IN RADIOPHARMACOLOGY

TABLE OF CONTENTS

	SECTION 1. Radiopharmacology of the Brain	1
Chapter 1	Biochemical strategies in positron emission tomography. J. R. Barrio, R. A. Hawkins, J. C. Mazziotta, M. E. Phelps Invited review paper.	2
Chapter 2	Synthesis and biodistribution of F-18 2- and F-18 6- fluoronicotine. J. R. Ballinger, B. M. Bowen, G. Firnau, E. S. Garnett, M. P. Heyes, C. Nahmias, F. W. Teare	17
Chapter 3	Comparison of new <sup>99m</sup> Tc-adamantane-IDA compounds with <sup>99m</sup> Tc BAT brain agents. A. J. van Wyk, P. J. Fourie, P. Bekker, S. Wood, K. Smith, T. Gerber, J. du Preez	27
Chapter 4	Pharmacokinetics of I-123 N-isopropyl-p-iodoamphetamine (IMP) in humans. R. M. Baldwin, J. L. Wu, N. E. Salazar, J. M. Ma, S. Look, C. D. Vu, J. S. Borenstein, S. Reece, D. Hain, M. J. Felix	35
Chapter 5	Structure biodistribution pattern of iodophenoxyethylamines in mice. P. L. Zabel, Y. Zea-Ponce, G. W. Brown, D. H. Hunter, G. J. Morrissey, M. J. Chamberlain, A. A. Driedger	42
	SECTION 2. Tumor Imaging	47
Chapter 6	Tumor detection with radiolabeled agents. B. C. Lentle Invited review paper	48
Chapter 7	Labeled immunomodulator from nocardia bacteria, a new approach in tumor detection. C. Schuemichen	62
Chapter 8	Biodistribution of Indium-111 peritoneal macrophages in normal and tumor bearing rats. L. P. Kasi, H. J. Glenn, K. Mehta, I. Techemeyer, L. C. Stephens, T. P. Haynie	67

Chapter 9	<sup>11</sup> C-labeled derivatives of estradiol and hexestrol: Synthesis, receptor binding and target tissue uptake. H. Ali, J. Rousseau, M. J. Lacroix, M. Diksic, J. E. van Lier	74
Chapter 10	Evaluation of an 7 $\alpha$ - undecyl substituted estradiol derivative as a carrier for breast tumor imaging and therapy. J. N. Da Silva, J. E. van Lier	80
Chapter 11	Synthesis and pharmacological activity of spin labeled derivatives of tamoxifen. Y. Zea-Ponce, D. H. Hunter	88
	SECTION 3. Myocardial and Cardiovascular Imaging	93
Chapter 12	Pharmacological evaluation of p-iodophenylcholine and its I-125 labeled analog. G. W. Brown, R. B. Philp	94
Chapter 13	Evaluation of radioiodinated phenylcholine analogues as myocardial imaging agents. P. L. Zabel, Y. Zea-Ponce, G. W. Brown, D. H. Hunter, G. J. Morrissey, A. A. Driedger, M. J. Chamberlain	100
Chapter 14	Assessment of the anti-atherogenic efficacy of a hypo- lipidemic drug by scintigraphy. M. R. DeGalan, S. W. Schwendner, M. D. Gross, R. C. Counsell	109
	SECTION 4. Radioagents for Liver Function Studies	118
Chapter 15	Pharmacology of <sup>99m</sup> Tc hepatobiliary radiopharmaceuticals. A. R. Fritzberg Invited review paper	119
Chapter 16	Resistance to <u>in vivo</u> re-oxidation of Tc-99m: an indicator of a superior hepatobiliary imaging agent. J. J. Coupal, Wei-Jen Shih, F. H. DeLand	132
Chapter 17	Radiopharmacology of colloidal dispersions. Ann Warbick-Cerone Invited review paper	139
Chapter 18	Polyiodinated triglyceride analogs as potential hepatic imaging agents. J. P. Weichert, M. P. Groziak, M. A. Longino, S. W. Schwendner, R. E. Counsell	148
Chapter 19	Synthetic glycosylated H.S.A. analogues for hepatocyte receptor imaging. G. R. Boniface, S. Selvaraj, M. R. Suresh, B. M. Longenecker, A. A. Noujaim	157

	SECTION 5. Radiolabeling of Blood Cells	165
Chapter 20	Current state of the art of blood cell labeling. S. C. Srivastava, R. F. Straub, G. E. Meinken, M. C. Gil Invited review paper	166
Chapter 21	Technetium-99m platelets. Kinetics of intracellular localization and mechanism of uptake of radioactivity. A. Gobuty, H. Aquino, E. Kim	184
Chapter 22	Indium-111 labeled leukocytes and platelets: Mechanism of labeling and intracellular location of In-111. M. Thakur, F. White III, R. Weiner, C. Park	193
Chapter 23	Quantification of early granulocyte deposition on synthetic vascular graft as a measure of foreign body reaction: Experimental study with <sup>111</sup> In-labeled granulocytes. M. Dewanjee, D. Mariano, E. Solis, S. Mackey, M. Kaye	202
Chapter 24	The separation, radioactive labeling and assessment of cell viability of sheep polymorphonuclear leukocytes. G. Morrissey, W. Sibbald, R. B. Philp, A. A. Driedger	214
	SECTION 6. Pulmonary Studies	219
Chapter 25	Current use of radionuclides in pulmonary studies. J. M. B. Hughes Invited review paper	220
	SECTION 7. Renal Agents	229
Chapter 26	Radiopharmaceuticals for the evaluation of renal function. P. H. Cox Invited review paper	230
Chapter 27	Biological studies on a new class of Tc-99m renal tubular function agents. D. Eshima, A. R. Fritzberg, A. Taylor Jr., S. Kasina	237
Chapter 28	Kidney uptake of <sup>125</sup> I-peanut lectin in mice. A. Shysh, G. R. Boniface, S. M. Eu, A. A. Noujaim	248
	SECTION 8. Labeled Proteins and Monoclonal Antibodies	256
Chapter 29	Labeled proteins in nuclear medicine - current status. D. J. Hnatowich Invited review paper	257
Chapter 30	Factors influencing the biological properties of labeled protein. Gy. Janoki, L. Korosi, B. Spett	271
Chapter 31	Comparative study between direct labeled and DTPA-chelated human fibrinogen. B. Spett, Gy. A. Janoki, L. Korosi	277

Chapter 32	Tc-99m labeled antiplatelet monoclonal antibody fragments (MAP-Fab) for radioimmunoimaging of experimental thrombi. P. Som, Z. H. Oster, P. O. Zamora, K. Yamamoto, D. F. Sacker, A. B. Brill, K. D. Newell, B. A. Rhodes	285
	SECTION 9. Miscellaneous	289
Chapter 33	Radioiodinated pregnenalone esters for imaging the adrenal cortex. M. A. Longino, S. W. Schwendner, M. Van Dort, R. W. Skinner, M. D. Gross, R. E. Counsell	290
Chapter 34	Possible role of T4 binding to cytoplasmic fraction of pituitary cells on the control of TSH response to TRH in the rat. R. J. Boado, J. A. Fernandez-Pol, V. Pecorini, A. A. Zaninovich	299
Chapter 35	Effects of radiation from sodium I-131-iodide on mouse testes: comparison with sodium Tc-99m-pertechnetate and sodium P-32-phosphate. T. A. Mian, H. J. Glenn, M. Jannasch, L. P. Kasi, T. P. Haynie, M. L. Meistrich	303
Chapter 36	Determination of metal ion impurities in radiogallium preparations and their effects on the radiolabeling of chelated proteins. C. J. Turner, T. R. Sykes, B. M. Longenecker, A. A. Noujaim	309
Chapter 37	Pyrimidine nucleosides modified at the 2' and 3' -positions; investigation of their interaction with rat liver pyrimidine nucleoside kinases. W. P. Gati, J. G. Kugyelka, E. E. Knaus, L. I. Wiebe	316
	Subject Index	323
	List of Participants	328
