CHAPTER I—WELDING PROCESSES AND THEIR APPLICATIONS	I
FUSION WELDING PROCESSES	2
1. Arc Welding	2
(a) <i>Metal Arc Welding</i>	2
(b) <i>Carbon Arc Welding</i>	4
(c) <i>Atomic Hydrogen Welding</i>	4
(d) <i>Inert-gas Arc Welding (Argon Arc Welding)</i>	6
(e) <i>Submerged Arc ("Unionmelt") Welding</i>	6
2. Gas Welding	7
(a) <i>Oxy-acetylene Welding</i>	7
(b) <i>Oxy-hydrogen, Oxy-propane and Oxy-butane Welding</i>	10
3. Thermit Welding	10
WELDING PROCESSES INVOLVING PRESSURE	11
1. Forge Welding	11
2. Pressure Welding	12
3. Press Welding (Cold Welding)	12
4. Resistance Welding	12
(a) <i>Spot Welding</i>	13
(b) <i>Seam Welding</i>	14
(c) <i>Projection Welding</i>	14
(d) <i>Resistance Butt Welding</i>	15
(e) <i>Flash Butt Welding</i>	15
(f) <i>Stud Welding</i>	17
BIBLIOGRAPHY	17
 CHAPTER 2—THE METALLURGY OF WELDING	 18
PHYSICAL AND MECHANICAL PROPERTIES OF METALS AND ALLOYS	18
Melting Point	18
Gases in Metals	19
Thermal Conductivity	20
Contraction	21
Tensile Strength and Ductility.. .. .	23
THE STRUCTURE OF WELD METAL AND ITS REFINEMENT	24
THE HARDENING OF STEEL WELDS BY RAPID COOLING	25
IMPURITIES GOOD AND BAD	28
BIBLIOGRAPHY	28

CHAPTER 3—THE EXAMINATION AND TESTING OF WELDS 29

METHODS APPLICABLE TO WELDED JOINTS 30

1. Non-destructive Examinations and Tests 31
 - (a) *Visual Examination* 32
 - (b) *Radiographical Examination by Means of X-rays* 36
 - (c) *Radiographical Examination by Means of Gamma Rays* 45
 - (d) *Magnetic Method of Crack Detection* 45
 - (e) *Fluorescent Method of Flaw Detection* 48
 - (f) *Ultrasonic Vibrations as a Means of Detecting Flaws* 48
2. Destructive Examinations and Tests 49
 - (a) *Qualitative Examinations and Tests* 49
 - (b) *Quantitative Examinations and Tests* 54
 - (c) *Tests on Spot Welds* 64

APPLICATIONS OF TESTING PROCEDURE 65

REFERENCES 65

CHAPTER 4—WELDING EQUIPMENT AND SHOP LAYOUT 66

PLATE-SHOP EQUIPMENT 66

1. Flame Cutting Machines 66
2. Powder Cutting Equipment for Chromium-nickel Austenitic Steels 67
3. Rotary Shears 68
4. Nibbling Machines 68
5. Band Saws 68
6. Folding Presses 69
7. Bending Presses 70
8. Bending Rolls 70
9. Manipulators or Positioning Devices 71
10. Fume-exhausting Fans 73

EQUIPMENT FOR METAL ARC WELDING 73

1. Welding Sets 73
2. Cables, Cable Connectors, Plugs and Sockets 76
3. Electrode Holders 78
4. Chipping and Gouging Tools 82
 - (a) *Tools for Slag Removal* 82
 - (b) *Tools for Metal Removal* 83
5. Wire Brushes 84

EQUIPMENT FOR OXY-ACETYLENE WELDING AND MANUAL FLAME CUTTING 85

1. Gas Supply 85
 - (a) *Oxygen* 85
 - (b) *Acetylene* 86
 - (c) *Propane* 87
 - (d) *Butane* 87
2. Cylinder Trolleys 87
3. Regulators 89

EQUIPMENT FOR OXY-ACETYLENE WELDING AND MANUAL FLAME CUTTING (<i>continued</i>)										<i>Page</i>
4. Welding Blowpipes	92
5. Flame Cutting Blowpipes	93
6. Flame Gouging Blowpipes	94
7. Flame Cleaning Blowpipes	95
PLANT FOR OTHER PROCESSES	95
SHOP LAYOUT	97
1. Steelwork and Platework Shops	97
2. Pipe Shops	97
3. Fitting Shops	97
4. Miscellaneous Shops	100
REFERENCES	100

CHAPTER 5—WELFARE AND SAFETY IN THE PRACTICE OF WELDING 101

WELDING HAZARDS	101
PROTECTIVE CLOTHING AND APPLIANCES	101
1. Eyes	101
2. Hands and Arms	106
3. Body and Legs	106
PROTECTION OF LUNGS	107
PRECAUTIONS AGAINST ELECTRIC SHOCK	110
EXPLOSION AND FIRE HAZARDS	111
1. Gas Welding and Flame Cutting	111
2. Arc Welding	116
INJURIES FROM FALLS	119
