

## CONTENTS

CHAPTER	PAGE
1. THE CLAISEN REARRANGEMENT— <i>D. Stanley Tarbell</i> . . . . .	1
2. THE PREPARATION OF ALIPHATIC FLUORINE COMPOUNDS— <i>Albert L. Henne</i> .	49
3. THE CANNIZZARO REACTION— <i>T. A. Geissman</i> . . . . .	94
4. THE FORMATION OF CYCLIC KETONES BY INTRAMOLECULAR ACYLATION— <i>William S. Johnson</i> . . . . .	114
5. REDUCTION WITH ALUMINUM ALKOXIDES (THE MEERWEIN-PONNDORF- VERLEY REDUCTION)— <i>A. L. Wilds</i> . . . . .	178
6. THE PREPARATION OF UNSYMMETRICAL BIARYLS BY THE DIAZO REACTION AND THE NITROSOACETYLAMINE REACTION— <i>Werner E. Bachmann</i> and <i>Roger A. Hoffman</i> . . . . .	224
7. REPLACEMENT OF THE AROMATIC PRIMARY AMINO GROUP BY HYDROGEN— <i>Nathan Kornblum</i> . . . . .	262
8. PERIODIC ACID OXIDATION— <i>Ernest L. Jackson</i> . . . . .	341
9. THE RESOLUTION OF ALCOHOLS— <i>A. W. Ingersoll</i> . . . . .	376
10. THE PREPARATION OF AROMATIC ARSONIC AND ARSINIC ACIDS BY THE BART, BECHAMP, AND ROSENMUND REACTIONS— <i>Cliff S. Hamilton</i> and <i>Jack F. Morgan</i> . . . . .	415
INDEX . . . . .	455
