

TABLE OF CONTENTS

		PAGES
Sec. 1.	INTRODUCTION.....	01-04
Sec. 2.	METALLIC MINERALS..... Uses. Ores. Production. Treatment schemes. Selling.	01-267
Sec. 3.	INDUSTRIAL MINERALS..... Properties. Uses. Crudes. Production. Treatment schemes. Selling.	01-124
Sec. 3A.	CEMENT..... Chemistry. Specifications. Production. Preparation of raw materials. Burning. Grinding. Handling. Selling. Flowsheets.	01-42
Sec. 4.	CRUSHING..... Jaw and gyratory crushers. Sledging rolls. Gyratory-type secondary crushers. Rolls. Hammer mills. Stamps. Crushing plants. Opera- tion. Performances.	01-101
Sec. 5.	WET GRINDING..... Mechanism of tumbling. Construction of tumbling mills. Rod mills. Ball mills. Tube mills. Operation of tumbling mills. Chilean mills. Huntington mills. Grinding pans. Operation. Performances.	01-133
Sec. 6.	DRY GRINDING..... Buhr and attrition mills. Impact mills. Jet pulverizer. Roller mills. Ball-bearing mills. Rod mills. Ball mills. Tube mills. Compart- ment mills. Operation. Performances.	01-54
Sec. 7.	SCREEN SIZING..... Screening surfaces. Grizzlies and fixed screens. Revolving screens. Shaking screens. Vibrating screens. Screening efficiency. Capacity.	01-72
Sec. 8.	CLASSIFICATION WITH WATER..... Principles of classification. Mechanical classifiers. Sand and slime tanks. Hydraulic classifiers. Operation. Performances.	01-61
Sec. 9.	AIR SIZING AND DUST COLLECTION..... Principles of suspension in air. Gravitational separators. Inertial separators. Filters. Washers. Electrical precipitation. Dust- collecting systems. Pneumatic conveying.	01-37
Sec. 10.	WASHING AND SCRUBBING..... Jet, tumbling, and stirring scrubbers. Sand scrubbing. Screening and classifier washers.	01-16
Sec. 11.	GRAVITY CONCENTRATION..... Principles. Jigs. Shaking tables. Vanners. Sluice. Sink-float separation. Film sizing. Pneumatic concentration.	01-140
Sec. 12.	FLOTATION..... History. Collection. Conditioning. Levitation. Machines and processes. Operation. Flowsheets. Performances.	01-130
Sec. 13.	ELECTRICAL CONCENTRATION..... Principles of magnetic separation. Drum separators. Pulley separa- tors. Belt separators. Wet magnetic separation. Roasting to magnetize. Guard magnets. Magnetic flocculation and defloccula- tion. Principles of electrostatic separation. Electrostatic separators.	01-47

	PAGES
Sec. 14. MISCELLANEOUS METHODS OF CONCENTRATION.....	01-24
Hand sorting. Mechanical pickers. Amalgamation. Differential dis- integration. Differential phase change.	
Sec. 15. DEWATERING.....	01-26
Principles. Draining. Intermittent and continuous gravitational thickeners. Filter thickeners. Washing in thickeners.	
Sec. 16. FILTRATION.....	01-22
Principles. Filter medium. Vacuum filters. Pressure filters. Sand filters. Centrifugal filters.	
Sec. 17. DRYING.....	01-19
Principles. Hearth drier. Shaft driers. Operation. Design of driers.	
Sec. 18. STORAGE AND MILL TRANSPORT.....	01-107
Bins. Gates. Ground storage. Conveyors. Elevators. Chutes. Launders. Pumps. Feeders. Distributors.	
Sec. 19. SAMPLING AND TESTING.....	01-208
Principles of sampling. Hand sampling. Sampling machines. Ton- nage and moisture determination. Mill sampling. Custom-sampling mills. Microscopy. Photography. Grindability. Sizing. Sink-float separation. Testing for a flowsheet. Ore-testing apparatus and pro- cedures. Amalgamation and cyanidation. Milling calculations.	
Sec. 20. DESIGN AND CONSTRUCTION OF ORE-TREATMENT PLANTS.....	01-96
Location of mill. Water supply. Tailing disposal. Topography of millsite. Mill construction. Power. Lighting. Heating. Fire protection. Dust collection. Shops. Cost estimating.	
Sec. 21. MATHEMATICS.....	01-62
Arithmetic. Algebra. Elementary geometry. Trigonometry. Analytic geometry. Calculus. Derivation of empirical formulas.	
Sec. 22. MATHEMATICAL AND MISCELLANEOUS TABLES.....	01-76
Powers and roots. Reciprocals. Areas and volumes. Angle measure- ment. Trigonometric functions. Logarithms. Interest, discount, and annuities. Equivalentents. Composition and specific gravity of minerals. Abbreviations.	
INDEX.....	1-47
