

## CONTENTS

|   | Page |
|---|------|
| I. Introduction .....   | 3    |
| II. Various Solid Systems Consisting of Magnesium Carbonate and Water,<br>their Properties and Mutual Transformations ..... | 4    |
| III. Some Considerations of the Dehydration Processes and Discussion of<br>the Thermodynamic Data.....                      | 17   |
| IV. Experimental.....   | 23   |
| Preparation of Magnesium Carbonate Trihydrate, Synthetic Magnesite<br>and Amorphous Magnesium Carbonates .....              | 23   |
| Measurements of Water Vapour Pressure and Carbon Dioxide Pressure.<br>Method .....  | 26   |
| Measurements of Systems Produced by Rehydration of Amorphous<br>"Active" Magnesium Carbonate .....                          | 31   |
| Measurements of Systems Produced by Dehydration of Magnesium Car-<br>bonate Trihydrate at Room Temperature .....            | 33   |
| Literature .....  | 37   |
