Preface

The purpose of this Glossary is to give the non-professional translator a convenient and useful tool when dealing with foreign welding publications.

Many of the terms contained in this Glossary have been derived from various foreign technical magazines and, therefore, are not to be found in any standard or technical dictionary. Nevertheless, the subject matter has been arranged in such a manner as to *supplement*, not to *substitute*, the respective technical dictionaries.

The following is a list of the major sources from which this material was compiled:

1. Fachausdrücke der Schweisstechnik, VDI Verlag, GMBH—Berlin NW 7.
2. *Journal de la Soudure*, No. 8 (1940).
3. *Avtožennoe Delo*, Vol. 1, No. 4 (1930).
4. Glossary of Technical Terms—The British Aluminum Company, Limited, London.

Orbis, 7.4. 1950, f 0,50/0,40, cross.
