12	STARTUPS – The Theory	18
13	Theory of Startups	18
14	Schumpeter Model	19
15	Barriers to disruption	19
16	Opportunity Recognition Model	20
17	Kirznerian	20
18	Pattern recognition	21
19	Discussion Questions	21
20	ABOUT THE AUTHOR	xiii
21	INTRODUCTION	1
22	Why is it that ‘no one knows anything’ in media and entertainment?	2
23	So what is the media and entertainment industry?	3
24	Scope	4
25	How big is the overall media and entertainment audience?	7
26	What is the size of media and entertainment industry revenues?	7
27	The definition of entrepreneurship	8
28	The challenge of entrepreneurship	10
29	Structure of this book	10
30	Media and Entertainment Equity Model (MEEM)	11
31	The Avalanche Model	12
32	The Cascade Model	13
33	Global use cases	13
34	Why this book?	14
35	Process	15
36	Discussion Questions	15

Prior knowledge	21
Ansoff Matrix	22
PESTEL Analysis	23
Discovery Model	24
Case studies in the Discovery Model	24
Investment strategies and the Discovery Model	25
Creation Model	26
Operationalising the Creation Model	26
Effectuation Theory	27
Social Network Theory	28
Resource-Based View	30
Bricolage Theory	32
Institutional Theory	33
Takeaways	34
Discussion Questions	34
2 STARTUPS – The Reality	38
Introduction	38
The changing pattern of media investment	39
Industry Tools	40
TAM, SAM & SOM	40
Total Addressable Market (TAM)	40
Serviceable Available Market (SAM)	40
Serviceable Obtainable Market (SOM)	41
SWOT Analysis	41
Blue Ocean Strategy	42
Business Model Canvas (BMC)	43
The business plan	43
Slide sequence	44
Useful additional tips	45
Every business plan has a limit	46
Valuing startups	47
The nine most common startup valuation methodologies	48
Angel investing, pre-seed and seed rounds	50
Technology positioning	51
Venture Capital / Series A / Series B	52
The importance of investor profile	53
Crowdfunding	53
Lean Startup	55
Build	55
Measure	56
Learn	56
Takeaways	57
Discussion Questions	58

3 IDEAS – The Theory	62
Theory	62
Open Innovation Theory	62
External knowledge sources and partnerships	63
Inside-out and outside-in knowledge flows	64
Knowledge Creation Theory (SECI)	64
Socialisation	65
Externalisation: converting tacit knowledge into explicit concepts	65
Combination	66
Internalisation	67
Absorptive Capacity Theory (ACAP)	68
Acquisition	68
Assimilation	69
Transformation	70
Exploitation	70
Social Network Theory in innovation	71
Structural holes in the market	71
Network centrality and its impact on information flow	73
Organisational Learning Theory	73
Single-loop learning	73
Double-loop learning	74
Communities of Practice Theory	75
Takeaways	76
Discussion Questions	76
4 IDEAS – The Reality	81
Introduction	81
Serendipity in ideas generation	81
Finding a development method	82
Industry Tools	84
Intrapreneurship, the Innovator's Dilemma and ambidexterity	84
Skunk Works	85
Wild Ducks	87
Google's 20% Time	89
Design Thinking	89
Empathise	90
Define	90
Ideate	91
Prototype	92
Test	92
Agile	93
Frugal innovations	94
Takeaways	94
Discussion Questions	95

5 TALENT – The Theory	99
Theory	100
Human Capital Theory	100
Human capital in South Korea's pop music industry	101
Social Exchange Theory (SET)	102
Expectancy Theory	103
Attraction-Selection-Attrition (ASA) Framework	105
Job Demands-Resources Model (JD-R)	106
Competency-Based Theory	107
Self-Determination Theory (SDT)	107
Boundaryless and Protean Career Theories	108
Takeaways	110
Discussion Questions	111
6 TALENT – The Reality	114
Introduction	114
Industry Tools	115
Stars as marketing assets	115
Impact of stars on entertainment project marketing	115
Stars as marketing heuristics	116
Drawbacks of star dependence	117
Star career strategies	118
Value development	118
The star career pivot	119
Downside risks in long careers	120
Celebrity reputation management	120
Value creation by stars	121
Value destruction by stars	122
Counter-factual value creation	123
Reputational damage by third parties	123
Celebrity value protection	124
Posthumous star value management	125
What do managers and agents do?	125
Star value and Generative AI	126
A model of star/startup collaboration	128
Animal stars	130
Takeaways	130
Discussion Questions	131
7 TECHNOLOGY – The Theory	136
Theory	136
Technology Acceptance Model (TAM)	136
Diffusion of Innovations (DOI) Theory	138

Disruptive Innovation Theory	141
Jevon's Paradox	143
Technology-Organisation-Environment (TOE) Framework	143
Entrepreneurial Orientation (EO) and Technology Adoption	145
Takeaways	146
Discussion Questions	146
8 TECHNOLOGY – The Reality	150
Introduction	150
Industry Tools	151
New business models	151
New creative paradigms	152
Production tools	153
Machine learning	153
Generative AI production tools	155
Is AI creative?	155
AI agents	156
New challenges	157
Human agency	157
Questionable empathy of AI-created content	158
AI and creativity – the view of Will.i.am	158
Copyright	159
Training data	160
Licensing deals	161
Bias	162
Forms of AI bias	162
Algotorial approaches	163
Regulation and compliance within AI	164
New roles	164
Takeaways	164
Discussion Questions	165
9 ENGAGEMENT – The Theory	169
Theory	169
Uses and Gratifications Theory (UGT)	170
Flow Theory	171
Transportation Theory	172
Elaboration Likelihood Model (ELM)	173
Parasocial Interaction (PSI) Theory	174
Social Identity Theory	176
Media Equation Theory/Engagement and Interactivity Theory	176
Takeaways	177
Discussion Questions	178

10	ENGAGEMENT – The Reality	181
	Introduction	181
	The value of engagement	181
	A never-ending challenge	182
	Industry Tools	183
	AIDA Model	183
	STP Model	184
	Value levers	186
	Virality	187
	Customer-centric entertainment	188
	Authenticity	188
	Powerful IP	189
	Fan communities and consumer attention	189
	Data-driven production	190
	Exploration vs exploitation	190
	Exploration and exploitation with AI tools	191
	Dynamic creative optimisation	192
	Reinforcement learning (RL) and other AI tools	193
	Other forms of algorithmic recommendation	193
	The global scale of recommendation algorithms	194
	Netflix and data-driven commissioning	194
	The value of a synthetic audience	196
	Share of model	197
	Takeaways	197
	Discussion Questions	199
11	SCALEUP – The Theory	203
	Theory	203
	Penrose's Theory of the Growth of the Firm	204
	Dynamic Capabilities Theory (DCT)	205
	Greiner's Growth Model	206
	Stage-based growth models	208
	Takeaways	210
	Discussion Questions	210
12	SCALEUP – The Reality	213
	Introduction	213
	The imperative to scale up	213
	Industry Tools	214
	Surviving the 'messy middle'	214
	Points of parity, points of difference	216
	Mass production as a path to scaleup	218
	Digital scaleup tools	219

Scaleup and company culture	221
When scaleup goes wrong	223
The investment paradox of hits and hype	223
Surviving in a changing industrial and geopolitical landscape	224
Scaleup in India's entertainment industry	225
Takeaways	227
Discussion Questions	228
13 EXIT – The Theory	232
Theory	232
Harvest Theory	232
Agency Theory	233
Transaction Cost Economics (TCE)	234
Acqui-hires	235
Organisational Life Cycle Theory	236
Signalling Theory	236
Upper Echelons Theory	237
Takeaways	239
Discussion Questions	240
14 EXIT – The Valuation	242
Introduction	242
Valuation methods	243
DCF analysis	243
P/E multiples	244
ARR multiples	245
Rule of 40	246
Comparable Company Analysis (or 'Comparatives'/'Comps')	247
Precedent transactions	248
Brand and talent valuation	249
Technology-based valuation	250
Options pricing models	252
The roles of negotiation and contingent payments	253
Contingencies and earnouts	254
Takeaways	255
Discussion Questions	256
15 EXIT – The Decision	258
Introduction	258
Reasons to Exit	259
Founder's desire to exit	259
Synergies – strategic value to acquirer	260
Non-profit goals	261

Combination of goals – in stock market listing	262
Unwanted exit situations	263
Regulation challenges	264
Takeaways: Paradoxes of Entertainment Success	265
Discussion Questions	267
