*Carl Therrien, Philippe Bédard, and Alanna Thain*

## Section 1 Altered States

|                                                                |    |
|----------------------------------------------------------------|----|
| 1. Immersive Situativity: Perspectives on Being In/Out of Sync | 33 |
|----------------------------------------------------------------|----|

*Tom Poljanšek and Laura Katharina Mücke*

|                                                                          |    |
|--------------------------------------------------------------------------|----|
| 2. Douglas Trumbull and the Technological Aesthetic of <i>Brainstorm</i> | 55 |
|--------------------------------------------------------------------------|----|

*Charles R. Acland*

|                            |    |
|----------------------------|----|
| 3. Dual Cognitive Approach | 81 |
|----------------------------|----|

*Eugene Kukshinov*

|                                                                                                                                           |     |
|-------------------------------------------------------------------------------------------------------------------------------------------|-----|
| 4. Emotional and Immersive Experiences in Films and Games:<br>Looking into the Perceptual Model and Striving for a<br>Motivational Theory | 105 |
|-------------------------------------------------------------------------------------------------------------------------------------------|-----|

*Maxime Deslongchamps-Gagnon*

|                                                                                                       |     |
|-------------------------------------------------------------------------------------------------------|-----|
| 5. Interaction and Immersion Logics in <i>Encounters</i> : Coalescence<br>of Bodies in a Liquid Space | 123 |
|-------------------------------------------------------------------------------------------------------|-----|

*Claire Chatelet and Mathieu Pradat*

|                                                                                                                |     |
|----------------------------------------------------------------------------------------------------------------|-----|
| 6. Facing Oneself: Out-of-Body Experience, Immersion, and the<br>Remediation of Cinema through Virtual Reality | 141 |
|----------------------------------------------------------------------------------------------------------------|-----|

*Pietro Conte*

|                                                                                                         |     |
|---------------------------------------------------------------------------------------------------------|-----|
| 7. The Time it Takes to Tend Virtual Succulents: Immersing<br>Oneself in a Playthrough of <i>Viridi</i> | 163 |
|---------------------------------------------------------------------------------------------------------|-----|

*Gabriel Tremblay-Gaudette*

## Section 2 Finding New Frames

8. The Many Births of Virtual Reality 187  
*Philippe Bédard*
9. Seeing by Automobility: Protoautomobility, Immersion, the Traveller-Spectator, and the Phantom Ride, 1897–1912 203  
*Michael J. T. Stock*
10. From Participation to Immersion: Promotional Tactics around Tricked and Dynamic Seats in the Film Theatre 223  
*Aude Weber-Houde*
11. Surface and Depth: The Picture Plane as a Site of Immersivity in the Digital Age 245  
*C. E. Harris*
12. “Let’s Cross This Portal Together”: Immersion Mechanisms in VR Performances and Their Current Limitations 265  
*Ágnes Karolina Bakk*
13. Immersive Materiality and Television Production in *The Dark Crystal: Age of Resistance* (2019) 285  
*Dan Leberg and Sabrina Sauer*
14. “More Mbappé Than Me?”: Soccer Video Games, Athletic Bodies, and the Performative Displacement 305  
*Daniele Iannucci*

## Section 3 The Edge of Sense(s)

15. Walter Benjamin on the Threshold of Immersion 325  
*Sonny Walbrou*
16. Correlations of Immersion and Authenticity in the Experience of Fencing in *Hellish Quart* and *For Honor* 347  
*Michał Mochocki and Ignacy Nowicki*

|                                                                                                            |     |
|------------------------------------------------------------------------------------------------------------|-----|
| 17. New Heritage Ecologies: Embracing Entanglement and Complexity in Virtual Heritage Immersion            | 373 |
| <i>Elina Lex</i>                                                                                           |     |
| 18. The Contribution of Narrative Puzzles to Player Challenge-Based Immersion: A Case Study of <i>Abzû</i> | 393 |
| <i>Gabrielle Trépanier-Jobin and Mathilde Savoie</i>                                                       |     |
| 19. The Opposite of Elsewhere: Home Video as Virtual Reality                                               | 417 |
| <i>Madison Brown</i>                                                                                       |     |
| 20. Video Game Immersion as Bodily Atmospheric Attunement                                                  | 435 |
| <i>Andrea Andiloro</i>                                                                                     |     |

## Section 4 Interviews

|                                                                                                                        |     |
|------------------------------------------------------------------------------------------------------------------------|-----|
| 21. Beyond Frontiers: An Interview with Félix Lajeunesse (Co-founder and Chief Creative Officer, Felix & Paul Studios) | 455 |
| <i>Edited by Philippe Bédard</i>                                                                                       |     |
| 22. Producing <i>Intravene</i> : An Experiment in Immersive Audio                                                      | 463 |
| <i>Brenda Longfellow</i>                                                                                               |     |
| 23. A Much-Needed Conversation with Women Working in VR                                                                | 473 |
| <i>Edited and moderated by Caroline Klimek</i>                                                                         |     |
| 24. <i>Espace &amp; Présence</i> : An Interview with Guillaume Perreault-Roy                                           | 489 |
| <i>Edited by Philippe Bédard</i>                                                                                       |     |
| 25. The Ultimate Potential of Immersive Media: An Interview with Kent Bye (Host of the <i>Voices of VR</i> Podcast)    | 497 |
| <i>Edited by Philippe Bédard</i>                                                                                       |     |
| 26. An interview with Skawennati                                                                                       | 511 |
| <i>Edited by Carl Therrien</i>                                                                                         |     |
