Preface	
<i>Dattatreyaudu Nori and Basil S. Hilaris</i>	ix
Foreword	
<i>John L. Lewis, Jr.</i>	xi

Part I. General Principles

Introduction to Basic Radiobiology	
<i>Eric J. Hall</i>	1
Introduction to Basic Radiation Physics	
<i>Gian D. Ragazzoni</i>	23
Basic Principles of External Beam Treatment Design for Gynecological Cancers	
<i>Gerald J. Kutcher</i>	39
Intracavitary Radiation Treatment Planning and Dose Evaluation	
<i>Lowell L. Anderson, Mary Ellen Masterson, and Dattatreyaudu Nori</i>	51
Radiation Protection in Gynecological Applications	
<i>Jean St. Germain</i>	73
Recent Advances in Computer Dosimetry for Cancer of the Cervix	
<i>Radhe Mohan</i>	79

Part II. Clinical Applications

Staging and Work-up Procedures for Patients With Gynecological Cancers	
<i>Daniel H. Smith</i>	89
Radiation Therapy in the Treatment of Cancer of the Cervix	
<i>G. Stephen Brown</i>	101
Principles of Radiation Therapy in the Management of Carcinoma of the Endometrium	
<i>Dattatreyaudu Nori</i>	115
The Treatment of Carcinoma of the Ovary	
<i>Zvi Fuks, Joachim Yahalom, and Harold Brenner</i>	147
Principles of Radiation Therapy in the Treatment of Vaginal Tumors	
<i>Dattatreyaudu Nori</i>	173
Principles of Radiotherapy in the Treatment of Cancer of the Vulva	
<i>Dattatreyaudu Nori</i>	191

vi / Contents

Cancer of the Urethra	
<i>Dattatreyaudu Nori, Basil S. Hilaris, and Mostafa A. Batata</i>	199
Gestational Trophoblastic Disease: The Role of Radiotherapy	
<i>Walter B. Jones</i>	207
Role of Radiation in the Management of Uterine Sarcoma	
<i>Michael Marchese and Dattatreyaudu Nori</i>	223
Techniques and Usefulness of Para-aortic Nodal Irradiation in Carcinoma of the Cervix	
<i>Dattatreyaudu Nori</i>	233
Complications in the Radiotherapeutic Management of Gynecological Cancers	
<i>K. Choi, H. Aziz, and M. Rotman</i>	239
Preservative Surgery and Radiation Therapy in the Treatment of Early Breast Cancer	
<i>Brenda Shank and Samuel Hellman</i>	251
Role of Adjunctive Radiation in the Treatment of Breast Cancer	
<i>Florence C.H. Chu</i>	273

Part III. Special Topics

Role of Interstitial Implantation in Gynecological Cancer	
<i>Dattatreyaudu Nori and Basil S. Hilaris</i>	283
Interstitial-Intracavitary "Syed-Neblett" Applicator in the Treatment of Carcinoma of the Cervix	
<i>A.M. Nisar Syed and Ajmel A. Puthawala</i>	297
Role of Radiocolloids in Gynecological Cancer	
<i>Dattatreyaudu Nori and Basil Hilaris</i>	309
Radiosensitizers and Protectors	
<i>Dattatreyaudu Nori, J.H. Kim, B. Hilaris, and F.C. Chu</i>	319
Gynecological Cancer, Pregnancy, and Radiation Treatment	
<i>Chitti Moorthy</i>	331
Primary Gynecological Lymphomas	
<i>Michael A. Tome, Lourdes Z. Nisce, and Dattatreyaudu Nori</i>	339
Management of Lymphoma Associated With Pregnancy	
<i>Joachim Yahalom</i>	345
Radiation Therapy in Patients With Carcinoma of the Cervix Discovered by Simple Abdominal Hysterectomies	
<i>Dattatreyaudu Nori</i>	363
Radiation Therapy in Patients Undergoing Radical Hysterectomy and Pelvic Node Dissection for Early Stages of Cervical Cancer	
<i>WooShin Kim</i>	369
Interpretation of Follow-up Cervicovaginal Smears After Radiation Therapy	
<i>Patricia E. Saigo</i>	377
Intraoperative Electron Beam Radiation With Special Reference to Gynecological Malignancy	
<i>Alfred L. Goldson, Ebrahim Ashayeri, Gregorio Delgado, and Edmund S. Petrilli</i>	389
Sexuality in Gynecological Patients Undergoing Radiation Therapy Treatments	
<i>Mary Ellen Dolan</i>	399
Glossary	409
Index	417
