Preface

iii

Part I: Diagnosis of Human-Pathogenic Gram-Negative Bacteria

- 1. Recent Advancement in the Diagnosis of *Cronobacter* Species and Related Species Causing Foodborne Disease and Outbreaks** **3**

Hyein Jang, Jayanthi Gangiredla, Isha R. Patel, Flavia Negrete, Leah M. Weinstein, Katie Ko, Ben D. Tall and Gopal R. Gopinath

- 2. Current Practices for Isolation, Identification and Characterization of *Campylobacter* in Foods and Recommendations for Future** **45**

Zajeba Tabashsum, Mayur Krishna, Mia Lang, Syed Hussain, Nishi Shah, Paulina B. Romo and Debabrata Biswas

Part II: Diagnosis of Human-Pathogenic Gram-Positive Bacteria

- 3. Detection of *Listeria monocytogenes* in Food and Environment** **67**

Atin. R. Datta and Laurel S. Burall

- 4. Diagnosis of Human-Pathogenic *Staphylococcus* in Surveillance and Outbreak Detection** **96**

Nabanita Mukherjee, Goutam Banerjee, Saumya Agarwal and Pratik Banerjee

Part III: Diagnosis of Human-Pathogenic Virus

- 5. Advances and Opportunities in Hepatitis B Virus and Hepatitis C Virus Diagnostics** **141**

Matthew D. Pauly, Sabrina Weis-Torres and Saleem Kamili

Part IV: Diagnosis of Human-Pathogenic Gastrointestinal Parasites

6. Molecular Diagnosis of Intestinal Amebiasis	185
<i>Ibne Karim M. Ali</i>	
7. Recent Developments in the Diagnosis and Detection of the Zoonotic Parasite <i>Toxoplasma gondii</i> Causing Foodborne Disease and Outbreaks	222
<i>S. Almeria and J.P. Dubey</i>	
8. Biology and Epidemiology of <i>Cyclospora cayetanensis</i>	284
<i>Ynes R. Ortega and Lordwige Atis</i>	
9. Advances in the Detection and Diagnosis of Coccidian Parasites Causing Gastrointestinal Disease and Foodborne Outbreaks	295
<i>Ynes Ortega</i>	
Index	311
