

SAE TECHNICAL BOARD RULES AND REGULATIONS

(Extract)

Section 7(c)—Every report approved and issued by the Board shall carry the following statement:

All technical reports, including standards approved and practices recommended, are advisory only. Their use by anyone engaged in industry or trade is entirely voluntary. There is no agreement to adhere to any SAE Standard or Recommended Practice and no commitment to conform to or be guided by any technical report.

In formulating and approving technical reports, the Board and its Committees will not investigate or consider patents which may apply to the subject matter. Prospective users of the report are responsible for protecting themselves against liability for infringement of patents.¹

January 10, 1946

¹ This policy was approved by SAE Council on December 5, 1924 and reaffirmed March 7, 1938.
