	INTRODUCTION— <i>by George K. Scribner</i>	3-4
	PREFACE TO THE THIRD EDITION	5
	ACKNOWLEDGMENTS TO THIRD EDITION	6-7-8
I	INTRODUCTION: DEFINITION, REQUIREMENTS, TYPES, FACTORS	13
II	SUGGESTIONS ON DESIGN PROCEDURE	15
III	PRACTICAL POINTS IN MOLD DESIGN AND CONSTRUCTION	19
	<i>General Mold Design</i>	19
	<i>Compression Mold Design</i>	20
	<i>Injection Mold Design</i>	21
	<i>For the Toolmaker</i>	21
	<i>For the Molding Operator</i>	22
	<i>For the Estimator</i>	24
	<i>For the Finisher</i>	25
	<i>For the Inspector</i>	25
IV	MATERIALS FOR PLASTICS MOLDS	27
	<i>General Purpose Low Carbon Steels</i>	28
	<i>Hobbing Steels</i>	29, 36
	<i>Water Hardening Steels</i>	37
	<i>Carburizing Steels</i>	30, 33
	<i>High Alloy Tool Steels</i>	30
	<i>Stainless Steels</i>	32
	<i>Oil Hardening Tool Steels</i>	37
	<i>Air Hardening Tool Steels</i>	39
	<i>Stainless Steels</i>	40
	<i>Hot Rolled and Cold Finished Steels</i>	41
	<i>Heat Treating Equipment</i>	41
	<i>Nonferrous Metals for Molds—by Wm. J. Dewar</i>	43
	<i>Beryllium Alloys and their Applications—by N. W. Bass</i>	44
	<i>A Classification of Plastics According to their Molding Characteristics</i>	47
	<i>Rockwell Hardness Tests on Plastics—by J. Robert Tucker</i>	50

CONTENTS

CHAPTER		PAGE
V	TYPES OF MOLDS FOR COMPRESSION MOLDING	52
	<i>Positive Type Mold</i>	52
	<i>Semi-Positive Type Mold</i>	53
	<i>Flash Type Mold</i>	54
VI	THE DESIGN OF A SIMPLE COMPRESSION TYPE MOLD...	55
VII	THE DESIGN OF A SPLIT CAVITY COMPRESSION TYPE MOLD	59
	<i>Design of a Cooling Fixture for the Same Mold</i>	60
VIII	THE DESIGN OF A SIDE-OPENING COMPRESSION MOLD— <i>by F. G. Woodiwiss</i>	64
	<i>A Loading Fixture for a Compression Mold</i>	68
IX	DESIGN OF A TRANSFER TYPE MOLD	71
	<i>Jet Molding</i>	74
X	THE DESIGN OF A SIMPLE INJECTION TYPE MOLD	76
	<i>An Alternate Design for a Typical Ejector Pin Mold—by Thomas J. Lester</i>	80
XI	THE DESIGN OF A STRIPPER-PLATE INJECTION MOLD...	83
	<i>An Alternate Design for a Stripper Type Mold—by Thomas J. Lester</i>	86
XII	THE DESIGN OF A LOOSE-BAR INJECTION MOLD	89
XIII	AN INJECTION MOLD FOR A PLASTICS LENS— <i>by Carl H. Whitlock</i>	94
XIV	LOADING THE INJECTION MOLD— <i>by Don F. Hoffman</i>	97
XV	EJECTOR SYSTEMS FOR INJECTION MOLDS	105
	<i>Direct Systems—by Don F. Hoffman</i>	105
	<i>Indirect Systems—by Don F. Hoffman</i>	110
	<i>The Use of an Air Cylinder for Deep Cavity Ejection—by Gordon B. Thayer</i>	116
	<i>Finger Core Pulls in Mold Design—by Thomas J. Lester</i>	118
XVI	MOLD BUILDING METHODS AND EQUIPMENT.....	122

CONTENTS

CHAPTER		PAGE
XVII	METHODS OF MOLD SINKING	125
	<i>Hobbing</i>	125
	<i>Heat Treatment for Hobbing</i>	128
	<i>Milling</i>	129
	<i>The Rotary Head Method of Milling Mold Cavities—by D. V. Stevens</i>	130
	<i>Duplicating</i>	133
	<i>Gorton Duplicators</i>	134
	<i>The Monarch Shapemaster; Lead Screw Variating Mechanism</i>	137
	<i>The Turchan Duplicating Attachment</i>	141
XVIII	FINISHING METHODS AND EQUIPMENT	143
	<i>Edging</i>	143
	<i>Filing</i>	144
	<i>Tumble Finishing</i>	145
	<i>Sanding and Grinding</i>	148
	<i>Flash Trimming Dies</i>	151
	<i>Drilling</i>	151
	<i>Tools for Drilling and Tapping</i>	154
	<i>Tapping</i>	157
	<i>Increasing Efficiency in Tapping Molded Parts—by Ray Olson</i>	158
	<i>Turning and Boring</i>	160
	<i>Broaching</i>	161
	<i>Buffing</i>	162
	<i>Assembling</i>	163
	<i>Painting</i>	167
XIX	MOLDING SCREW THREADS IN PLASTICS	169
XX	HARD CHROMIUM PLATING FOR THE PLASTICS INDUSTRY—by W. A. Crowder and L. E. Welch	173
	<i>Electroplating (Ekko Process)</i>	187
	<i>What Hardness for Plastics Molds?—by L. J. Morrison</i>	187

CONTENTS

CHAPTER		PAGE
XXI	PLASTIC TOOLING— <i>by Harry W. Tompkins</i>	189
	<i>A Plastic Tooling Shop and Its Equipment</i>	191
	<i>The Liquid Casting Resins</i>	195
	<i>Plaster Pattern Making</i>	200
	<i>Casting Procedure</i>	204
	<i>Drop Hammer Punches</i>	211
	<i>Compreg Drill Fixtures</i>	213
	<i>Conclusion</i>	216
	<i>Mechanical Equipment for Plaster Model Making</i>	218
XXII	ESTIMATING PLASTICS MOLDS	221
	<i>Index to Tables of Time Values and Estimating</i>	222
	<i>A Time Estimate for a Compression Mold</i>	237
	<i>Estimating Systems for Plastics Molds</i>	243
	<i>Estimate of a Six Cavity Stripper Plate Injection Mold—by John Wintemute</i>	249
	<i>How to Use Shrinkage Charts</i>	253
	<i>Shrinkage Charts</i>	254
	NOMENCLATURE OF PLASTICS MOLDING	256
	INDEX	269
