

CONTENTS

CHAPTER		PAGE
I...	THE BILE ACIDS AND STEROLS	1
	A—Introductory, page 1	
	B—The Structural Relationship of the Bile Acids to the Sterols, page 5	
	C—The Carbon Framework of the Bile Acids and Sterols, page 6	
	D—The Position of the Hydroxyl Groups in the Bile Acids and Sterols, page 16 .	
	E—The Double Bonds of the Sterols, page 25	
II...	VITAMINS	31
	A—Introductory, page 31	
	B—Vitamin A, page 32	
	C—The Vitamin B Complex, page 38	
	D—Vitamin C (<i>l</i> -Ascorbic Acid), page 63	
	E—The Vitamins of the D Group, page 68	
	F—The Vitamin E Group (The Tocopherols), page 78	
	G—The Vitamin K Group, page 85	
	H—Conclusion, page 90	
III...	THE HORMONES	92
	A—Introductory, page 92	
	B—The Thyroid Hormone. Thyroxine, page 93	
	C—The Female Sex Hormones. Oestrone, Oestriol and Equilenin, page 100	
	D—The Male Sex Hormone. Androsterone, page 106	
	E—Corpus Luteum Hormone; Progesterone, page 107	
	F—The Plant Hormones, Auxin- <i>a</i> and Auxin- <i>b</i> , page 111	

CHAPTER	PAGE
IV...THE CARDIAC AGLYCONES	116
A—Introductory, page 116	
B—The Structure of Strophanthidin, page 116	
C—The Structure of Periplogenin, page 120	
D—The Structure of Uzarigenin, page 121	
E—The Structure of Digitoxigenin, page 123	
F—Gitoxigenin and Scillaridin A, page 125	
V...SOME NATURAL PORPHYRINS AND RELATED COMPOUNDS	126
A—Introductory, page 126	
B—Haemin, page 126	
C—Bilirubin, page 131	
D—Chlorophyll, page 134	
VI...THE AZAPORPHYRINS	163
A—Introductory, page 163	
B—The Phthalocyanines (Tetrabenztetra-azapor- phyrins), page 164	
C—The Mono-azaporphyrins, page 171	
D—The Di- and Tri-azaporphyrins, page 174	
VII...SYNTHETIC HIGH POLYMERS AND CONDENSATES	179
A—Introductory, page 179	
B—The Relationship between Structure and Poly- merization Capacity, page 181	
C—The Reaction Factors, page 184	
D—Some High Polymers and Condensates, page 188	
VIII...RUBBER	201
IX...SOME DEUTERO-ORGANIC COMPOUNDS	221
X...SOME CASES OF ISOMERISM IN CYCLIC COMPOUNDS	232
XI...THE DIPHENYL PROBLEM	242

CHAPTER	PAGE
XII...SOME ASPECTS OF STEREOCHEMISTRY .	257
A—Introductory, page 257	
B—The Allenes, page 257	
XIII...NEW ORGANO-ALKALI COMPOUNDS .	269
XIV...OTHER CASES OF ABNORMAL VALENCY .	289
A—Introductory, page 289	
B—Trivalent Tin, page 290	
C—Trivalent Lead, page 291	
D—Divalent and Quadivalent Nitrogen, page 292 .	
E—Monovalent Oxygen, page 301	
F—Monovalent Sulphur, page 304	
G—Monovalent Mercury, page 306	
H—Free Alkyl Radicals, page 306	
I—Stability and Constitution, page 308	
J—Conclusion, page 310	
XV...STRUCTURAL FORMULAE AND THEIR FAILINGS	312
XVI...SOME APPLICATIONS OF ELECTRONICS TO ORGANIC CHEMISTRY	319
XVII...SOME UNSOLVED PROBLEMS	351
APPENDICES	
I—Synthesis of Vitamin A, page 361	
II—Folic Acid (Pteroylglutamic Acid), page 365	
NAME INDEX	371
SUBJECT INDEX	377
