

CONTENTS

CHAPTER		PAGE
I...	ORGANIC CHEMISTRY IN THE TWENTIETH CENTURY	1
II...	SOME CARBOHYDRATE CONSTITUTIONS	36
	A—Introductory, page 36	
	B—The Phenomena of Mutarotation, page 40	
	C—The Alkylation of the Carbohydrates, page 43	
	D—The Oxide-rings in the Sugars, page 46	
	E—The Disaccharides, page 63	
	F—Gentianose, page 72	
	G—Some Glucoside Constitutions, page 73	
III...	SOME POLYSACCHARIDES	79
	A—Inulin, page 79	
	B—Cellulose, page 83	
	C—Starch, page 90	
	D—Glycogen, page 100	
	E—Laminarin, page 105	
	F—Conclusion, page 108	
IV...	PECTIC SUBSTANCES AND ALGINIC ACID	110
	A—Pectic Substances, page 110	
	B—Alginic Acid, page 117	
V...	THE SESQUITERPENE GROUP OF COMPOUNDS	119
	A—Introductory, page 119	
	B—Farnesol, Nerolidol, and Farnesene, page 122	
	C—Bisabolol and Bisabolene, page 125	
	D—Cadalone and Eudalone, page 127	
	E—Cadinene and the Cadinols, page 133	
	F—Zingiberene, page 137	
	G—The Selinees, page 140	
	H—Eudesmol, page 143	
	I— α -Santalol, page 146	
	J—Eremophilone and Related Hydroxy-Ketones, page 151	

CHAPTER	PAGE
K— α - and β -Cyperone, page 155	
L—Azulenes, page 160	
M—The Caryophyllenes, page 163	
VI...THE DITERPENE GROUP OF COMPOUNDS .	174
A—Introductory, page 174	
B—The Camphorenes, page 176	
C—Abietic Acid, page 178	
D— <i>d</i> -Pimaric Acid, page 185	
E— <i>l</i> -Sapietic Acid (<i>l</i> -Pimaric Acid), page 189	
F—Agathic Dicarboxylic Acid, page 190	
G—Manoyl Oxide, Manool and Sclareol, page 194	
VII...THE TRITERPENE GROUP OF COMPOUNDS	201
A—Introductory, page 201	
B—The Squalenes, page 201	
C—Lupeol (Lupenol), page 209	
D—Hederagenin and Oleanolic Acid, page 211	
E—The Amyrins (Amyrenols), page 217	
F—Gypsogenin, Glycyrrhetic Acid, Erythrodiol, Betulin and Basseol, page 221	
VIII...VARIOUS GROUPS OF ALKALOIDS . . .	225
A—The Glyoxaline Group, page 225	
B—The Areca Nut Alkaloids, page 233	
C—Ricinine, page 236	
D—The Angostura Alkaloids, page 241	
E—The Anhalonium or Cactus Alkaloids, page 245	
F—The Phenanthrene Group, page 254	
G—The Phenanthridine Group, page 270	
H—The Quinazoline Group, page 272	
IX...RECENT WORK ON THE INDOLE GROUP OF ALKALOIDS	276
A—The Alkaloids of Ergot, page 276	
B—The Harmaline Alkaloids, page 287	
C—The Yohimbe Alkaloids, page 289	
D—Strychnine and Brucine, page 295	
X...THE ANTHOCYANINS	308

CHAPTER	PAGE
XI...THE DEPSIDES AND TANNINS	329
A—Historical, page 329	
B—The Nature of the Depsides, page 332	
C—Some Factors which influence Depside Formation, page 333	
D—The Synthesis of Depsides, page 335	
E—Intramolecular Change in the Depsides, page 340	
F—The Lichen Acids, page 341	
G—Some Chlorodepsides, page 351	
H—The Depside Tannin, page 355	
I—The Penta-(<i>m</i> -Digalloyl)-Glucoses, page 357	
J—Penta-(<i>m</i> -Digalloyl)- β -Glucose and Chinese Tannin, page 360	
K—Compounds of High Molecular Weight, page 361	
L—The Ellagitannins, page 364	
M—The Phlobatannins, page 365	
XII...THE LIGNANS	372
XIII...SOME THEORIES OF THE NATURAL SYNTHESIS OF VITAL PRODUCTS	383
NAME INDEX	425
SUBJECT INDEX	433
