

CONTENTS

Preface ix

Part I. Introduction 1

1. The Story of Humans Versus Machines 3
2. What the Old Story Misses 5
3. What This Book Does 9

Part II. How AI Works 19

4. What Is Artificial Intelligence? 21
5. Supervised Learning 29
6. Overfitting and Underfitting 37
7. Deep Learning 44
8. The Exploration/Exploitation Trade-Off 57
9. Key Ideas to Remember 66

Part III. Machine Power 69

10. Social Welfare 71
11. The Means of Prediction 82
12. Agents of Change 97
13. Ideological Obfuscation 114

Part IV. Regulating Algorithms 119

14. Value Alignment 121
15. Privacy 136

- 16. Automation 148
- 17. Fairness 163
- 18. Explainability 175

Part V. Old Problems, New Challenges 189

- 19. The Ancient Questions Behind AI 191
- 20. Toward Democratic Control of the Means of Prediction 197
