1 Introduction	1
2 Understanding the International Business Environment	19
2.1 What is International Business?	19
2.2 History of globalization	20
2.3 The factors driving globalization	23
2.3.1 Technological	23
2.3.2 Economic	23
2.3.3 Political	23
2.3.4 Social	24
2.3.5 Cultural	24
2.3.6 Ecological	24
2.4 Emerging markets and contemporary strategic challenges	25
2.4.1 Emerging operational locations	26
2.4.2 Emerging consumer markets	28
2.4.3 New competitors	29
2.4.4 De-globalization, de-coupling, and the role of the Covid-19 pandemic	29
2.5 The institutional perspective on IB: Institutional triality	30
Summary	33
3 Formal Institutions	37
3.1 Political systems	39
3.1.1 Democracy	39
3.1.2 Authoritarianism	41
3.1.3 Political ideologies	45
3.2 Legal systems	47
3.2.1 Civil law	47
3.2.2 Common law	48

3.3 Economic systems	49
3.3.1 Liberal market economies	50
3.3.2 State-led or directed economic systems	53
3.3.3 Characteristics of economic systems	55
3.3.3.1 Market dynamics	56
3.3.3.2 Regulatory environment	56
3.3.3.3 Labour dynamics	56
3.3.3.4 Financial and investment landscape	56
3.3.3.5 Corporate social responsibility and ethics	57
3.3.3.6 Supply chain management	57
3.3.3.7 Access to resources	57
3.3.3.8 Technology and innovation	57
3.3.3.9 Trade policies and tariffs	57
3.3.3.10 Intellectual property rights	58
3.3.4 Mixed economic systems: European social democratic models	59
3.4 Foreign direct investment and economic development	61
3.5 Country risk	65
3.6 Current developments in formal institutional environments	67
3.6.1 Increasing protectionism and economic nationalism	67
3.6.2 Chinese Belt and Road Initiative (BRI)	68
3.6.3 Resurgence of state capitalism and SOEs as political tools	68
3.6.4 Shift towards green economics	69
Summary	69
4 Informal Institutions	71
4.1 Iceberg model	73
4.2 Language	75
4.3 Culture	77
4.3.1 Definition and relevance	78
4.3.2 Concepts of culture	79
4.3.2.1 Hofstede's study and model of culture	80
4.3.2.2 GLOBE study and model of culture	83
4.3.2.3 Hall's study and model of culture	86
4.3.2.4 Trompenaars' study and model of culture	87
4.3.2.5 Kluckhohn and Strodtbeck's study and model of culture	88
4.4 Religion	90
4.5 Current developments in informal institutional environments	92
4.5.1 Adaptive informal institutions	92
4.5.2 Informal institutions, ESG, and financial performance	92
4.5.3 Family-controlled firms and informal institutions	93
4.5.4 Public sentiment as a relevant informal institution	93
Summary	93

5	Supranational Institutions and Institutional Distance	95
5.1	The landscape of supranational institutions	97
5.2	Organizations in the supranational landscape	99
5.2.1	Civil society organizations	99
5.2.2	International economic organizations: WTO, IMF, World Bank	101
5.3	Regional economic integration	103
5.3.1	Economic reasons	103
5.3.2	Political reasons	103
5.4	Theory of regional integration	104
5.4.1	Free trade area	106
5.4.2	Customs union	108
5.4.3	Common market and economic union	109
5.4.4	Non-hierarchical integration	112
5.5	Costs and benefits of regional economic integration	112
5.6	Trade barriers and rules	113
5.7	Dispute settlement	117
5.8	Institutional distance	119
5.9	Current developments in supranational institutional environments	122
5.9.1	Sustainable development	122
5.9.2	Digital trade	122
	Summary	123
6	Country-Level Theories of International Economic Exchange	125
6.1	Absolute advantage theory	127
6.2	Comparative advantage theory	128
6.3	Factor endowment theory	131
6.4	International product life cycle theory	134
6.5	The Leontief paradox	135
6.6	Linder's income-preference similarity theory	136
6.7	New trade theory	136
6.8	Current developments in country-level theories of economic exchange	138
	Summary	139
7	Firm-Level Internationalization Theories and Strategies	141
7.1	Why firms internationalize	143
7.1.1	Why firms internationalize – firm specific assets	145
7.1.2	Why firms internationalize – the resource-based view	147
7.1.3	Why firms internationalize – summary	151
7.2	When to internationalize: First mover advantages, the speed of internationalization, and born global firms	152

7.3 Where to internationalize – country market selection	155
7.3.1 Location advantages	155
7.3.2 Country-market selection: Institution-based view	156
7.3.3 Country market selection – Porter's diamond model	158
7.3.4 Country market selection – the Uppsala model part 1	159
7.3.4.1 Market Commitment	161
7.3.4.2 Market Knowledge	161
7.3.4.3 Current Business Activities	162
7.3.4.4 Commitment Decisions	162
7.3.5 Summary – country market selection	163
7.4 How to internationalize: Market entry decisions	164
7.4.1 Ownership mode decisions – strategic options	165
7.4.2 Ownership mode decisions – transaction cost theory	167
7.4.3 Establishment mode decisions	172
7.4.4 Value chain decisions – strategic options	174
7.4.5 Value chain decisions – the Uppsala model part 2	175
7.4.6 Summary – market entry decisions	176
7.5 The eclectic paradigm of internationalization: An integrative model	177
7.6 Current developments in internationalization theories and strategies	179
Summary	181
8 Structure and Strategy in the Multinational Company	183
8.1 Generic strategies	186
8.2 Strategy analysis	187
8.2.1 Internal analysis: The resource-based view	187
8.2.2 External analysis: Porter's five forces	189
8.2.3 The components of strategy	191
8.3 Global integration vs local responsiveness	192
8.4 Strategic orientations	196
8.5 Global value chains	198
8.6 International organization structures	200
8.6.1 International division structure	200
8.6.2 Global product structure	201
8.6.3 Global area structure	201
8.6.4 Global functional structure	201
8.6.5 Matrix structure	202
8.6.6 The interplay between organizational structure and strategy	202
8.7 Agency conflicts and remuneration in global companies	202
8.7.1 Agency theory	203
8.7.2 Stock options and aligning risk propensity	204

8.8 Global competitive strategy	207
8.8.1 The bandwagon effect	207
8.8.2 First mover advantage	208
8.8.3 Attacks and counterattacks (pre-emption)	208
8.8.4 Why do firms like to collude sometimes?	209
8.9 Real options	212
8.10 Recent developments in MNC structure and strategy	212
Summary	213
9 International Finance	215
9.1 Country risk	217
9.2 International investment	219
9.3 International capital markets	220
9.4 Exchange rates and foreign exchange risk management	224
9.5 Accounting, taxation, and reporting in the multinational firm	230
9.5.1 Regulatory frameworks governing international accounting	231
9.5.2 Taxation	233
9.6 International capital structure	236
9.7 Recent developments in international finance	237
Summary	239
10 International Marketing	241
10.1 Product: Global product standardization or adaptation	243
10.2 Promotion: Variations in advertising strategies	246
10.3 Pricing: Price variations across countries	251
10.4 Place: International distribution strategies	255
10.4.1 Direct and indirect distribution strategy	255
10.4.2 Choice of distribution system and partners	255
10.5 People: Supporting international market activities	257
10.6 Process	257
10.7 Physical evidence	258
10.8 Market potential	259
10.9 Recent developments in international marketing	260
Summary	263
11 International Human Resource Management	265
11.1 Key concepts in IHRM	268
11.2 Expatriation	269
11.2.1 Expatriates' journey in the foreign environment	270

11.2.2 Expatriate failure	271
11.3 International staffing	274
11.4 International hiring	276
11.5 International training	279
11.5.1 Standardized training programmes	280
11.5.2 Tailor-made training programmes	280
11.6 International compensation	282
11.7 International coaching and HR development	284
11.7.1 Definition of international coaching	285
11.7.2 International coaching and HR	286
11.7.3 Finding the right coach: Internal vs external	286
11.7.4 International coaching content	286
11.8 Recent developments in international human resource management	287
Summary	288
12 Global Supply Chain Management	289
12.1 What is global supply chain management?	291
12.2 Activities in global supply chain management	294
12.2.1 Procurement	294
12.2.2 Manufacturing	295
12.2.3 Inventory management	295
12.2.4 Logistics management	296
12.2.5 Returns management	296
12.2.6 Planning	297
12.3 Problems in international supply chain management	298
12.3.1 Risk and disruptions	298
12.3.2 Regulations and trade barriers	299
12.3.3 The bullwhip effect	301
12.4 Methods in international supply chain management	301
12.4.1 Preventive resilience strategies: Designing the international supply chain	302
12.4.4.1 Insourcing vs Outsourcing	302
12.4.4.2 International Distribution Systems	303
12.4.2 Recovery resilience strategies: Managing the international supply chain	304
12.5 Sustainability in global supply chains	306
12.5.1 Circular and closed loop supply chains	306
12.5.2 Nearshoring	306
12.5.3 Sustainable packaging	307
12.6 Agility in global supply chains	308
12.7 Recent developments in global supply chains	309
Summary	310

13 Digitalization in International Business	313
13.1 Digitalization in International Business	316
13.1.1 Big data	318
13.1.2 Automation	321
13.2 Data science in International Business	322
13.2.1 Regressions	324
13.2.2 Support vector machines	324
13.2.3 Tree-based models	325
13.2.4 Neural networks	326
13.2.5 Train-test split	327
13.2.6 Cross-validation	328
13.2.7 Assembly methods	329
13.2.7.1 Note	330
13.3 Artificial intelligence	330
13.3.1 Machine and human biases	333
13.3.2 Automation augmentation trade-offs	336
Summary	338
14 Sustainability in International Business	341
14.1 Ethics	343
14.1.1 Corruption and bribery	345
14.1.2 Human rights and workplace standards	346
14.2 Stakeholders and stakeholder theory	347
14.3 Corporate social responsibility	349
14.3.1 The case against CSR: Agency theory	349
14.3.2 The ethical case for CSR	349
14.3.3 The business case for CSR	350
14.4 Sustainability	351
14.4.4.1 Sustainable Development Goals (SDGs)	352
14.5 MNCs and climate change	354
14.6 Finance and ESG	357
14.7 Greenwashing	359
Summary	361
