Contributing Authors	XXI
A Foreword in the Form of a Warning	XXIX
Opening Address from the President	
Paul Tessier	1

Part I

Analysis - Three-Dimensional Imaging

Progress in Three-Dimensional Imaging at the Texas Craniofacial Center Kenneth E. Salyer, David P. Taylor, David A. Billmire, and Emmanuel E. Ubiñas	4
Methods for and Pitfalls in the Acquisition of Computed Tomographic Data for Faithful Three-Dimensional Reconstructions David C. Hemmy, Paul L. Tessier, and David J. David	9
Personal Computer-Assisted Planning of Craniofacial Surgery Lawrence P. Kerr, Wayne Kashinsky, and Samuel P. Pejo	12
Three-Dimensional Computer-Aided Design of Craniofacial Surgical Procedures Court Cutting, Fred Bookstein, Barry Grayson, Linda Fellingham, and Joseph G. McCarthy	17
Computer-Designed Prostheses for Orbitocranial Reconstruction Bryant A. Toth, William B. Stewart, and L. Franklyn Elliott	19
Applications of Volume Determination and Three-Dimensional Imaging Michael C. Stalneck, Linton A. Whitaker, Harvey M. Rosen, Gabor Herman, and Jayaram Udupa	25
Three-Dimensional Computed Tomographic Reformation in Facial Skeletal Surgery: High Technology in Search of a Clinical Application? S. Anthony Wolfe, Donald Altman, and Nolan Altman	27
The Latest Technical Developments in Three-Dimensional Reconstruction of Computed Tomography and Magnetic Resonance Imaging David C. Hemmy and Paul L. Tessier	35

Discussion of Part I	37
Discussants: Tessier, Whitaker, Kerr, Kawamoto, Hemmy, Marsh, McCarthy, Stalneck, Bruce, and Cutting	

Part II

Craniofacial Surgery for Tumors

Craniofacial Approach for Tumor Removal and Reconstruction Adolfo G. Montoya, E. Roda, M. Soto, and J. Heredero	42
Facial Disassembly for Tumor Resection Claes Lauritzen, J. Lilja, B. Vällfors, and J. Jarlstedt	49
Oncologic Cranio-orbital Surgery Richard E. Sabatier and James H. Weintraub	52
Combined Intracranial and Intranasal Approach for Resection of a Chondroma in a 5-Week-Old Child (Case Report) Hans Anderl, Wolfgang Mühlbauer, V. Grunert, K. Twerdy, and H. Spoendlin	58
Cranio-orbital Fibrous Dysplasia: Radical Resection and Immediate Reconstruction with Split Calvarial Bone Graft Camillo Curioni and Luigi Clauser	62
Maxillary-orbital Fibrous Dysplasia: Radical Treatment Ian R. Munro	69
Composite Transcranial Orbitectomy: Evolving Principles and Techniques Harvey M. Rosen	75
Craniofacial Surgical Techniques in the Management of Tumors of the Orbital Region. Report of Two Cases P. García Podestá, A. Negrotto, R. Villagran, J. De Vecchi, A. Montaldo, J.J. Hornblas, and P. Benedek	77
Orbital Teratomas Associated with Microphthalmic Corneal Cyst James A. Katowitz, Derek Bruce, and Linton A. Whitaker	81
Discussion of Part II	83
Discussants: Habal, Sabatier, Lauritzen, Montoya, Drommer, Anderl, Munro, Marchac, Wolfe, McCarthy, Chen, David, Edgerton, Zanini, Lewin, and Ousterhout	

Part III

Craniofacial Synostosis

Therapy for Severe Craniostenoses J. Mühling, J. Reuther, and N. Sörensen	88
--	----

Apert's and Crouzon's Syndromes Contrasted: Qualitative Craniofacial X-Ray Findings	
Sven Kreiborg, Howard Aduss, and M. Michael Cohen, Jr.	91
The Osseous Anatomy of Unilateral Coronal Synostosis	
Jeffrey L. Marsh, M. Gado, M. W. Vannier, and W. G. Stevens	96
Skulls with Unilateral Coronal Synostosis	
Jean-François Tulasne	98
Torticollis Versus Plagiocephaly	
Henry K. Kawamoto, Jr.	105
Intracranial Pressure in Craniostenoses: 302 Recordings	
Dominique Renier, Christian Sainte-Rose, and Daniel Marchac	110
I. Q. and Craniostenosis: Evolution in Treated and Untreated Cases	
Dominique Renier, Laurence Brunet, and Daniel Marchac	114
Timing and Methods of Treatment for Patients with Craniosynostosis	
Linton A. Whitaker, Scott P. Bartlett, Luis Schut, and Derek Bruce	118
Early Facial Advancement in Craniofacial Stenosis	
Wolfgang Mühlbauer, Hans Anderl, Peter Heeckt, Peter Ramatschi, and Esther Vertesy	123
Early Monobloc Frontofacial Advancement	
Daniel Marchac and Dominique Renier	130
Newly Developed Techniques for the Treatment of Craniofacial Dysostosis	
Hideo Nakajima and Toyomi Fujino	137
Barrel Stave Osteotomy for Correction of Turribrachycephaly	
Craniosynostosis Deformity	
John A. Persing, Milton T. Edgerton, T. S. Park, and John A. Jane	145
Problems of Cranial Height in Surgical Correction of Craniosynostosis	
Hiroshi Kamiishi, Nozomu Kurozumi, Katsuyuki Torikai, and Nobuyuki Shioya	151
Surgical Treatment of Overelevation in Adduction in Patients with Craniostenosis	
Gary R. Diamond and Linton A. Whitaker	155
Frontal Remodeling for Scaphocephaly	
Daniel Marchac and Dominique Renier	158
Management of a Complex Case of Crouzon's Syndrome	
P. García Podestá, A. Negrotto, J. De Vecchi, R. Villagran, A. Montaldo, P. Benedek, and J. J. Hornblas	160
Secondary Osteotomies for Simple Craniosynostosis	
Louis Morales	163

Recurrence of Exophthalmos After Midface Advancement in Children Shinichi Hirabayashi, Kiyonori Harii, and Atsushi Sakurai	168
Timing and Placement of the Posterior Maxillary Osteotomy in Le Fort Procedures, on the Basis of Anatomy and Development Douglas K. Ousterhout and Birte Melsen	170
Discussion of Part III	180
Discussants: Marchac, Persing, Kreiborg, Murray, McCarthy, Whitaker, Mühling, Goleria, Kawamoto, Munro, Steinhäuser, Marsh, David, Kay, Edwards, Schaeffer, Renier, Nakajima, Kamiishi, Diamond, Pertschuk, Tessier, Mühlbauer, Bruce, Ousterhout, and Hirabayashi	
Part IV	
Median and Paramedian Clefts	
Three-Dimensional Computerized Reconstruction of Craniofacial Clefts David J. David, David C. Hemmy, and Paul Tessier	188
Surgical Treatment of Orbital Hyper- and Hypotelorism Cassio M. Raposo do Amaral	190
Hypertelorbitism with Herniation of Brain and Pituitary Gland into the Oronasal Cavity H. F. Sailer and A. M. Landolt	197
Operative Experience in a Case of Facial Duplication Kitaro Ohmori	205
Treatment of Teleorbitism in Patients with Severe Medial Orbital Wall Hypoplasia or Anatomic Distortion T. Roderick Hester, Jr. and Ian Jackson	207
Surgery of Median and Paramedian Clefts Jacques C. van der Meulen	210
Facial Bipartition: A Concept More Than a Procedure Paul Tessier	217
Nasomaxillary and Maxillary Clefts Kazimierz Kobus	246
Craniofacial Clefts 3-10 Louis Morales	254
Frontoethmoidal Encephalomeningocele: Surgical Treatment and Anthropometrical Reconstruction Antonio Fuente del Campo	257
Discussion of Part IV	262
Discussants: van der Meulen, Kawamoto, Ortiz-Monasterio, Schaeffer, Sailer, Edgerton, Munro, McCarthy, Lee, Kobus, David, and Fuente del Campo	

Part V

Miscellaneous Techniques and IdeasA New Approach for Harvesting Cranial Bone Grafts:
The Guided Osteotome

Philip M. Hendel and Joseph M. Nadell 266

Moulding the Craniofacial Skeleton with a Paste of Concentrated Fibrin
and Bone Dust

Hans Anderl, Wolfgang Mühlbauer, and Daniel Marchac 274

Use of Prepared Cadaver Bone in Cranial Reconstruction.
A Preliminary Report

Michael Poole, M. Briggs, G. Ashworth, and M. Timmons 276

Repair of Major Defects of the Cranial Vault Using Cranial Homografts
Sterilized by Gamma Rays

Louis C. Merville, C. Brunet, P. Derome, and A. Visot 279

Bone Graft with One Side Exposed to the Air

Yu-Ray Chen 285

Bone Regeneration at a Rib Donor Site in Dogs

Yu-Ray Chen 289

Advances in Soft Tissue Reconstruction for Craniofacial Surgery

Louis C. Argenta and Reed O. Dingman 293

Frontal Bone Deformity with Bilobed Lipomas – A Case Report

Ralph A. Kloehn, David K. Dunn, and Jeanne E. Szarzynski 299

Jaw Reconstruction with Vascularized Cranial Bone

Scott L. Spear, Alfred J. Luessenhop, and Ayman Hakki 303

Congenital Aplasia of the Maxilla or Tessier Soft Tissue Cleft 5,
Bone Clefts 4, 5, and 6

Kuldip S. Goleria 305

Reconstruction of the Nonfunctioning Orbit – Anophthalmia

Mutaz B. Habal 312

Cranial Approach in 52 Cases: Experience of a Multidisciplinary Group
in South AmericaOscar Contreras, Miguel Gonzales, Rodrigo Villalobos,
Luciano Basauri, and Arturo Zuleta 317

Discussion of Part V 319

Discussants: Whitaker, Hendel, Ortiz-Monasterio, Anderl, Schaeffer,
Wolfe, Poole, Merville, Steinhäuser, Chen, Argenta, Edgerton, McCarthy,
Spear, Goleria, Ubiñas, Witzel, Wexler, Munro, Schmidt, and Habal

Part VI

Various Facial Osteotomies

The Self-Retained Le Fort I Osteotomy

Ian R. Munro 326

A New Self-Retained Osteotomy of the Maxilla

Jorge M. Psillakis 330

Use of Miniplates in Craniofacial Surgery

Wolfgang Mühlbauer and Hans Anderl 334

The Use of Miniplates in Craniomaxillofacial Surgery

Ian R. Munro 338

Unilateral Vertical Orbital Dystopia Following Orbital Exploration
in Early Childhood

Michael J. C. Wake, Anthony D. Hockley, and J. Henry Goldin 341

Zygomatic Advancement and Nose Augmentation in Down's Syndrome

Menachem Ron Wexler, Isaac J. Peled, and Uri Sagher 346

Modification of Orbital Osteotomy in Midfacial Advancement

Emil W. Steinhäuser 350

A Method of Treating Exophthalmos by Extensive Lateral
Orbital Wall Decompression

Linton A. Whitaker and Scott P. Bartlett 354

Discussion of Part VI 356

Discussants: McCarthy, Sailer, Grayson, Steinhäuser, Drommer, Munro,
Pospisil, Psillakis, Marchac, Edgerton, Wake, Kawamoto, Wolfe, Wexler,
Whitaker, and Katowitz

Part VII

Lateral Clefts. Vascularized Bone and Galeal FlapsThe In Vivo Anatomy of Mandibulofacial Dysostosis
(Treacher Collins Syndrome)

Jeffrey L. Marsh, M. W. Vannier, and S. E. Celin 362

Composite Frontal Bone Flap for Bony Reconstruction
in Treacher Collins Syndrome and Hemifacial Microsomia

Jacques M. Vaandrager 364

Treacher Collins Syndrome

Paul L. Tessier and Jean-François Tulasne 369

Vascularized Cranial Bone Grafts and Growth: An Experimental Study

Robert G. Colcleugh and Oleh Antonyshin 390

Cranial (Calvarial) Bone Grafts: An Overview Joseph G. McCarthy, Court B. Cutting, Gregory Latrenta, Z. Paul Lorenc, and Barry M. Zide	399
Clinical Applications of the Vascularized Temporal Myo-Osseous Flap Emmanuel E. Ubiñas, P. H. Hendel, K. E. Salyer, and J. Nadell	400
Vascularized Bone Grafts from the Outer Table of the Calvaria: Anatomy and Clinical Application Jorge M. Psillakis	407
Cranial Bone Flap Vascularized by Temporal Muscle or Fascia Toyomi Fujino and Hideo Nakajima	415
Cranial Bone Grafts Obtained from the Temporal Fossa Scott L. Spear and Carlos E. Wiegering	421
The Osteomuscular Temporal Flap in Post-Trauma Reconstruction of Loss of Substance of the Mandible Ernesto Caronni, L. Infuso, A. Spinardi and I. Harari	422
Temporal Osteocutaneous Island Flaps for Complete Reconstruction of Cleft Palate Defects David W. Furnas	425
Use of the Galea in Reconstructive Craniofacial Surgery Denys Montandon, R. Gumener, F. Marty, and A. Zbrodowski	434
Discussion of Part VII	441
Discussants: Kawamoto, Sergott, Marsh, Sailer, Mühlbauer, van der Meulen, McCarthy, Wolfe, Edgerton, Cutting, Colcleugh, Bartlett, Ousterhout, Toth, Psillakis, Hendel, Whitaker, Spear, Hurwitz, Caronni, Kay, Steinhäuser, and Furnas	

Part VIII

Free Flaps in Craniofacial Surgery

Microsurgery in Craniofacial Surgery Adolfo G. Montoya, C. Minguez, V. Pelayo, and E. Lalinde	448
Composite Free Flap Reconstruction for Severe Hemifacial Microsomia David J. David, E. Tan, and Rodney D. Cooter	453
The Role of Microvascular Surgery in Craniofacial Surgery Bahman Guyuron	458
Discussion of Part VIII	460
Discussants: Psillakis, Montoya, Fujino, Rommer, Anderl, Jones, and Guyuron	

Part IX

Craniofacial Surgery for Trauma

Immediate Bone Grafting in Gunshot Injury to the Face

Patricia K. Gomułka 462

Enophthalmos: Mechanisms and Results of Correction

Paul N. Manson and Nicolas T. Iliff 465

Secondary Treatment of Post-traumatic Enophthalmos

Linton A. Whitaker, Michael C. Stalneck, and James A. Katowitz 467

Part X

Complications – Psychological Aspects

Perioperative Management of Craniofacial Surgery in Infants and Children

Stanley L. Loftness, Richard E. Albin, Richard S. O'Donnell,
Robert W. Hendee, Jr., and John E. Morrison 470

Tracheal Stenosis in Apert's Syndrome

J. A. Trott 474

Infection in Transcranial Surgery: A Ten-Year Experience

D. J. David and R. D. Cooter 475

Local Hyperfibrinolysis in Craniofacial Surgery

E. Novoa, J. Decaro, J. De Vecchi, R. Villagran, and A. Negrotto 477

Reimplantation of Sterilized Autologous Frontal Bone Flap After Removal
in Because of Infection

Hans Anderl, Wolfgang Mühlbauer, and K. Twerdy 479

Effects of Facial Deformities and Physical Attractiveness on
Mother-Infant Bonding

Marcy Rogers-Salyer, A. Gayle Jensen, and R. Christopher Barden 481

Psychosocial Outcome of Craniofacial Surgery in Children

M. J. Pertschuk and L. A. Whitaker 486

Discussion of Parts IX and X

488

Discussants: Munro, Pertschuk, Ousterhout, Bruce, David, Pospisil,
Cutting, Stalneck, Rochman, Guyuron, Whitaker, Trott, Hockley,
Psillakis, Marchac, and Schaeffer
