

CONTENTS

Results of geomagnetic and earth current measurements made at the observatory of Budkov in 1978

I. MAGNETIC OBSERVATIONS

1. Introduction	10
2. Geomagnetic comparative measurements in the year 1978 ..	10
3. Absolute measurements	10
4. Variometers	11
5. Scale values	11
6. Base-line values	11
7. Notes to the Tables I - IX	15
8. Tables I: Numerical evaluation of magnetograms	17
9. Table II: Monthly and annual mean values of D, H, Z	91
10. Table III: K-indices	92
11. Table IV: Monthly means of K - indices	94
12. Table V: Magnetic storms with $K \geq 5$	95
13. Table VI: ssc, ssc ⁺	97
14. Table VII: si	98
15. Table VIII: sfe	98
16. Table IX: b, bp, bs, bps	99
17. Table X: Mean annual values, 1967 - 1978	100

II. EARTH CURRENTS RESULTS

18. Measurements of the earth current potential gradient ...	102
19. Scale values of the recording instrument	102
20. Tables XI: Monthly tables of hourly mean of the earth current potential gradient	103
21. Table XII: Monthly means of NS and EW components of the earth current potential gradient	152

III. PULSATIONS

22. Instrument for recording pulsations	154
23. Scale values of the instruments	154
24. Explanation to Tables XIII	155
25. Tables XIII: Pulsations pc, pi, pg	157
