

PAPERS

- 5 **Kriging-assisted multi-objective optimization of a wind turbine blade based on fluid-structure interaction analysis**
Abdoulaye H. I., El Maani R.
- 23 **Comparative analysis of support vector machine and logistic regression for gear fault detection and classification**
Lakikza A., Khoualdia T., Lakehal A., Mahfoudi F., Guerti N., Aknouch S.
- 41 **Numerical investigation of fluid flow in a T-shaped lid-driven cavity by CFD**
Ravichandran D. S., Perumal D. A., Manimaran R.
- 67 **A scalable solver for sampling-free uncertainty quantification of time-dependent partial differential equations**
Sharma S.
- 91 **Kinematic and dynamic analysis of long-reach excavator equipped with drum cutter for dredging tasks**
Trinh V.-H., Dang D.-V.
