About the Editors	vii
Preface to "Historical Wood: Structure, Properties and Conservation"	ix
Angeliki Zisi	
Forest Wood through the Eyes of a Cultural Conservator	
Reprinted from: <i>Forests</i> 2021 , 12, 1001, doi:10.3390/f12081001	1
Magdalena Broda and Callum A. S. Hill	
Conservation of Waterlogged Wood—Past, Present and Future Perspectives	
Reprinted from: <i>Forests</i> 2021 , 12, 1193, doi:10.3390/f12091193	25
Zarah Walsh-Korb	
Sustainability in Heritage Wood Conservation: Challenges and Directions for Future Research	
Reprinted from: <i>Forests</i> 2021 , 13, 18, doi:10.3390/f13010018	81
Hugh Collett, Florian Bouville, Finn Giuliani and Eleanor Schofield	
Structural Monitoring of a Large Archaeological Wooden Structure in Real Time, Post PEG Treatment	
Reprinted from: <i>Forests</i> 2021 , 12, 1788, doi:10.3390/f12121788	117
Sarah Hunt, Josep Grau-Bove, Eleanor Schofield and Simon Gaisford	
Effect of Polyethylene Glycol Treatment on Acetic Acid Emissions from Wood	
Reprinted from: <i>Forests</i> 2021 , 12, 1629, doi:10.3390/f12121629	131
Gabriel Lipkowitz, Karoline Sofie Hennum, Eleonora Piva and Eleanor Schofield	
Numerical Modelling of Moisture Loss during Controlled Drying of Marine Archaeological Wood	
Reprinted from: <i>Forests</i> 2021 , 12, 1662, doi:10.3390/f12121662	139
Yeqing Han, Jing Du, Xinduo Huang, Kaixuan Ma, Yu Wang and Peifeng Guo et al.	
Chemical Properties and Microbial Analysis of Waterlogged Archaeological Wood from the Nanhai No. 1 Shipwreck	
Reprinted from: <i>Forests</i> 2021 , 12, 587, doi:10.3390/f12050587	151
Carmen-Mihaela Popescu and Magdalena Broda	
Interactions between Different Organosilicons and Archaeological Waterlogged Wood Evaluated by Infrared Spectroscopy	
Reprinted from: <i>Forests</i> 2021 , 12, 268, doi:10.3390/f12030268	161
Jeannette J. Łucejko, Anne de Lamotte, Fabrizio Andriulo, Hartmut Kutzke, Stephen Harding and Mary Phillips-Jones et al.	
Evaluation of Soda Lignin from Wheat Straw / Sarkanda Grass as a Potential Future Consolidant for Archaeological Wood	
Reprinted from: <i>Forests</i> 2021 , 12, 911, doi:10.3390/f12070911	177
Eirini Mitsi, Stamatis Boyatzis and Anastasia Pournou	
Chemical Characterization of Waterlogged Charred Wood: The Case of a Medieval Shipwreck	
Reprinted from: <i>Forests</i> 2021 , 12, 1594, doi:10.3390/f12111594	205

Petros Choidis, Dimitrios Kraniotis, Ilari Lehtonen and Bente Hellum A Modelling Approach for the Assessment of Climate Change Impact on the Fungal Colonization of Historic Timber Structures Reprinted from: <i>Forests</i> 2021 , 12, 819, doi:10.3390/f12070819	217
Giuseppina Fiore Bettina, Belinda Giambra, Giuseppe Cavallaro, Giuseppe Lazzara, Bartolomeo Megna and Ramil Fakhrullin et al. Restoration of a XVII Century's <i>predella reliquary</i> : From Physico-Chemical Characterization to the Conservation Process Reprinted from: <i>Forests</i> 2021 , 12, 345, doi:10.3390/f12030345	245
Miha Humar, Angela Balzano, Davor Kržišnik and Boštjan Lesar Assessment of Wooden Foundation Piles after 125 Years of Service Reprinted from: <i>Forests</i> 2021 , 12, 143, doi:10.3390/f12020143	257
Amir Ghavidel, Reza Hosseinpourpia, Holger Militz, Viorica Vasilache and Ion Sandu Characterization of Archaeological European White Elm (<i>Ulmus laevis</i> P.) and Black Poplar (<i>Populus nigra</i> L.) Reprinted from: <i>Forests</i> 2020 , 11, 1329, doi:10.3390/f11121329	271
Magdalena Broda, Paulina Kryg and Graham Alan Ormondroyd Gap-Fillers for Wooden Artefacts Exposed Outdoors—A Review Reprinted from: <i>Forests</i> 2021 , 12, 606, doi:10.3390/f12050606	285
