<i>Max Saltzman: A Recollection</i>	ix
<i>Contributors</i>	xi
Dye Analysis of Selected Textiles from Three Roman Sites in the Eastern Desert of Egypt: A Hypothesis on the Dyeing Technology in Roman and Coptic Egypt <i>Jan Wouters, Ina Vanden Berghe, Ghislaine Richard, René Breniaux and Dominique Cardon</i>	1
Dyestuff Analysis of Two Textile Fragments from Late Antiquity <i>Regina Hofmann-de Keijzer and Maarten R. van Bommel</i>	17
A New HPLC-PDA Method for the Analysis of Tyrian Purple Components <i>Zvi C. Koren</i>	26
The Biblical Dye <i>Tekhelet</i> and its Use in Jewish Textiles <i>I. Irving Zideman</i>	36
Indigo-reducing Bacteria from the Medieval Woad (<i>Isatis tinctoria</i> L.) Vat: Some Aspects of their Interaction with Indigo <i>Philip John, Stylianos Arghyros and Sonja Nicholson</i>	45
Woad Production in Catalonia and Roussillon at the End of the Middle Ages <i>Anthony Pinto</i>	51
The Identification of Purple in Manuscripts <i>Cheryl Porter</i>	59
Missal Blue: Anthocyanins in Nature and Art <i>Maria João Melo</i>	65
<i>Sanguis draconis</i> , Dragon's Blood: The Use and Analysis of a Manuscript Illuminators' Colorant <i>Arie Wallert and Maarten R. van Bommel</i>	75
Some Aspects of Medieval and Renaissance Lake Pigment Technology <i>Jo Kirby</i>	89

Monitoring of Damage to Historic Tapestries (MODHT): A Newly Initiated EU Project <i>Anita Quye, with an Addendum by Kathryn Hallett</i>	109
Dye Analysis of Braids Used for Japanese Armour Dating from the 14th to the 16th Century (<i>poster presentation</i>) <i>Yoshiko Sasaki, Masanori Sato, Mari Omura and Ken Sasaki</i>	119
Chromatographic and Spectroscopic Differentiation of Insect Dyes on East Asian Paintings (<i>poster presentation</i>) <i>Jennifer Giacca</i>	127
A Study of Model Carminic Acid Lakes Prepared Using Cochineal, Collagen and Different Mordant Salts <i>Valery Golikov and Zoë Zharikova</i>	134
Natural Dyes Used in Polish Workshops in the 17th and 18th Centuries <i>Katarzyna Schmidt-Przewoźna</i>	148
Archaeology and Dyeing Traditions in West Africa (<i>poster presentation</i>) <i>Marie Marquet</i>	154
Chinese Green: Experimental Investigations (<i>poster presentation</i>) <i>Christopher J. Cooksey, Alan T. Dronsfield and Jo Kirby</i>	167
Logwood under the Microscope <i>Brian H. Davies</i>	180
Edward Schunck: Forgotten Dyestuffs Chemist? <i>Christopher J. Cooksey and Alan T. Dronsfield</i>	189
Spectroscopic Studies (FTIR, SIMS, ES-MS) on the Structure of Anthraquinone-Aluminium Complexes (<i>poster presentation</i>) <i>Jana Sanyova</i>	208
Computation of a Visible Light Absorption Spectrum, a Semi-Empirical Quantum Mechanical Approach: Application to the Colour Determination of Alizarin Complexes in Solution or Chemisorbed onto Cellulose <i>François Delamare and Bernard Monasse</i>	214
Evaluation of Consolidants for Black Iron Tannate-Dyed Maori Textiles (<i>poster presentation</i>) <i>Rangi Te Kanawa, Gerald J. Smith, Glenn A. Fenton, Ian J. Miller and Cara L. Dunford</i>	224
In the Circle of Colour: Natural Dyeing of Flax, Silk and Wool (<i>poster presentation</i>) <i>Katarzyna Schmidt-Przewoźna and Witold Przewoźny</i>	230
