<i>Notes on Contributors</i>	ix
<i>Acknowledgments</i>	xv
1 Synoptic Introduction <i>Nicholas Allott, Terje Lohndal, and Georges Rey</i>	1
2 Biographical Sketch <i>Nicholas Allott, Terje Lohndal, and Georges Rey</i>	18
Part I Historical Development of Linguistics	23
3 From the Origins of Government and Binding to the Current State of Minimalism <i>Artemis Alexiadou and Terje Lohndal</i>	25
4 The Enduring Discoveries of Generative Syntax <i>Lisa Lai-Shen Cheng and James Griffiths</i>	52
5 The Chomsky Hierarchy <i>Tim Hunter</i>	74
6 Naturalism, Internalism, and Nativism: <What> The Legacy of <i>The Sound Pattern of English</i> <Should Be> <i>Charles Reiss and Veno Volenec</i>	96
7 Language as a Branch of Psychology: Chomsky and Cognitive Science <i>Lila Gleitman</i>	109
Part II Contemporary Issues in Syntax	123
8 The Architecture of the Computation <i>David Adger</i>	125
9 Merge and Features: The Engine of Syntax <i>Peter Svenonius</i>	140
10 On Chomsky's Legacy in the Study of Linguistic Diversity <i>Mark Baker</i>	158

CONTENTS

11	Parameters and Linguistic Variation <i>Michelle Sheehan</i>	172
12	Constraints on Grammatical Dependencies <i>Gereon Müller</i>	190
13	Chomsky's Influence on Historical Linguistics: From Universal Grammar to Third Factors <i>Elly van Gelderen</i>	210
14	Second Language Acquisition <i>Roumyana Slabakova</i>	222
15	Multilingualism and Chomsky's Generative Grammar <i>Tanja Kupisch, Sergio Miguel Pereira Soares, Eloi Puig-Mayenco, and Jason Rothman</i>	232
Part III Comparisons with Other Frameworks		243
16	The View from Declarative Syntax <i>Peter Sells</i>	245
17	How Statistical Learning Can Play Well with Universal Grammar <i>Lisa S. Pearl</i>	267
18	Chomsky and Usage-Based Linguistics <i>Frederick J. Newmeyer</i>	287
Part IV Processing and Acquisition		305
19	Sentence Processing and Syntactic Theory <i>Dave Kush and Brian Dillon</i>	307
20	Neuroscience and Syntax <i>Emiliano Zaccarella and Patrick C. Trettenbrein</i>	325
21	Universal Grammar and Language Acquisition <i>Stephen Crain and Rosalind Thornton</i>	348
22	Chomsky and Signed Languages <i>Diane Lillo-Martin</i>	364
23	Atypical Acquisition <i>Neil Smith and Ianthi Tsimpli</i>	377
Part V Semantics, Pragmatics, and Philosophy of Language		391
24	Chomsky and the Analytical Tradition <i>John Collins</i>	393
25	Chomsky on Meaning and Reference <i>Paul Pietroski</i>	404

26	Chomsky on Semantics <i>Michael Glanzberg</i>	416
27	Chomsky and Pragmatics <i>Nicholas Allott and Deirdre Wilson</i>	433
Part VI Cognitive Science and Philosophy of Mind		449
28	Nativism <i>Georges Rey</i>	451
29	The Deep Forces That Shape Language and the Poverty of the Stimulus <i>Stephen Crain, Iain Giblin, and Rosalind Thornton</i>	462
30	Chomsky on the Evolution of the Language Faculty: Presentation and Perspectives for Further Research <i>Anne Reboul</i>	476
31	Chomsky and Intentionality <i>John Collins and Georges Rey</i>	488
32	The Mind–Body Relation: Problem, Mystery, or What? <i>Joseph Levine</i>	503
Part VII Methodological and Other Explanatory Issues		515
33	Chomsky’s “Galilean” Explanatory Style <i>Nicholas Allott, Terje Lohndal, and Georges Rey</i>	517
34	Chomsky and Fodor on Modularity <i>Nicholas Allott and Neil Smith</i>	529
35	Linguistic Judgments as Evidence <i>Steven Gross</i>	544
36	Chomsky’s Problem/Mystery Distinction <i>John Collins</i>	557
37	Knowledge, Morality, and Hope: The Social Thought of Noam Chomsky <i>Joshua Cohen and Joel Rogers</i>	567
Part VIII Reflections		581
38	Reflections <i>Noam Chomsky</i>	583
Author Index		595
Subject Index		599
