Foreword	V
 <i>Adhesion and Emigration of Leukocytes</i>	
Wilkinson, P.C. (Glasgow): Leukocyte Locomotion and Accumulation: The Contributions of Cell Polarity and Cell Growth	1
Colditz, I.G. (Armidale): Early Accumulation of Neutrophils in Acute Inflammatory Lesions	14
Issekutz, A.C.; Megyeri, P. (Halifax, N.S.): Induction of Leukocyte Infiltration by Endotoxin	24
Cybulsky, M.I.; McComb, D.J.; Dinarello, C.A.; Movat, H.Z. (Toronto, Ont./Boston, Mass.): Mediation by Interleukin-1 of Neutrophil Leukocyte Emigration Induced by Endotoxin	38
Habicht, G.S.; Beck, G. (Stony Brook, N.Y.): The Role of Interleukin-1 in Increased Vascular Permeability in Inflammation	51
Dunn, C.J.; Schaub, R.G.; Fleming, W.E.; Gibbons, A.J. (Kalamazoo, Mich.): Vascular Changes Induced by Interleukin-1 in vivo: Scanning Electron Microscopy Studies	55
Schaub, R.G.; Yamashita, A.; Simmons, C.A.; Romano, P.J.; Burdick, M.D. (Kalamazoo, Mich.): Leukocyte-Mediated Large Vein Injury and Thrombosis: Pharmacologic Intervention with Lipoxygenase Inhibitors	62
Movat, H.Z.; Burrowes, C.E.; Cybulsky, M.I.; Dinarello, C.A. (Toronto, Ont./Boston, Mass.): Role of Complement, Interleukin-1 and Tumor Necrosis Factor in a Local Shwartzman-Like Reaction	69
 <i>Neutrophil-Endothelial Interactions in vitro</i>	
Bevilacqua, M.P.; Wheeler, M.E.; Pober, J.S.; Fiers, W.; Mendrick, D.L.; Cotran, R.S.; Gimbrone, M.A., Jr. (Boston, Mass./ Ghent): Endothelial-Dependent Mechanisms of Leukocyte Adhesion: Regulation by Interleukin-1 and Tumor Necrosis Factor	79

Harlan, J.M.; Schwartz, B.R.; Wallis, W.J.; Pohlman, T.H. (Seattle, Wash.): The Role of Neutrophil Membrane Proteins in Neutrophil Emigration	94
Zimmerman, G.A.; McIntyre, T.M.; Prescott, S.M. (Salt Lake City, Utah): Naturally Occurring Lipids Influence the Interaction of Human Endothelial Cells and Neutrophils	105
Haskard, D.O.; Cavender, D.; Ziff, M. (Dallas, Tex.): Mechanisms of Lymphocyte Adhesion to Endothelial Cells	119
Cavender, D.; Haskard, D.O.; Foster, N.; Ziff, M. (Dallas, Tex.): Multiple Effects of Protein Synthesis Inhibitors on T Lymphocyte-Endothelial Cell Adhesion ...	123

Stimulation of Leukocytes and Their Effector Function

Verghese, M.W.; Smith, C.D.; Uhing, R.J.; Snyderman, R. (Durham, N.C.): Role of a Guanine Nucleotide Regulatory Protein in the Polyphosphoinositide Pathway of Leukocyte Activation by Chemoattractant Receptors	128
Smolen, J.E. (Ann Arbor, Mich.): Molecular Mechanisms of Leukocyte Stimulation: Contributions of Permeabilized Cell Systems	140
Schraufstatter, I.U.; Hyslop, P.A.; Jackson, J.; Cochrane, C.C. (La Jolla, Calif.): Mechanisms of Oxidant Injury of Cells	150
Ward, P.A.; Warren, J.S.; Johnson, K.J. (Ann Arbor, Mich.): Leukocytic Oxygen Products and Their Diverse Biological Effects	161
Yoshinaga, M.; Goto, F.; Goto, K.; Ohkawara, S.; Kitamura, M.; Mori, S. (Kumamoto): Triggering of Polymorphonuclear Leukocytes to Produce Interleukin-1 at the Inflammatory Site	169

Appendix

Colditz, I.G.; Cybulsky, M.I.; Movat, H.Z.: Proposal of Terminology for the Description of Leukocyte Events during Acute Inflammation	181
Subject Index	183
