Preface v
Contributors..... ix

PART I CHROMATIN REGULATION

1 Probing the Genomic Distribution of Histone Modifications
in Egg Extract-Treated Sperm Nuclei..... 3
Florian Berger and Jérôme Jullien

2 Canonical and Variant Nucleosome Reprogramming
from Sperm to Blastula 17
Fanju W. Meng and Patrick J. Murphy

3 Chromatin Analyses in Mouse Oocytes and Preimplantation Embryos..... 33
Zhiyuan Chen, Chunxia Zhang, and Yi Zhang

4 Hi-C Protocol for Studying Chromatin Spatial Organization
in Early Zebrafish Development 45
*Sergey V. Ulianov, Mariia Bazarevich, Natalia V. Petrova,
and Daria Onichtchouk*

5 HiChIP to Study 3D Genome Organization in *Xenopus tropicalis* Embryos ... 63
Amina O. Hussein, Ira L. Blitz, and Ken W. Y. Cho

PART II TRANSCRIPTION: CONTROL AND MEASUREMENT

6 CUT&Tag for Transcription Factor Binding Profiles During
Mammalian Zygotic Genome Activation 77
Wataru Kobayashi and Kikuë Tachibana

7 Imaging Nuclear Clusters in Live Zebrafish Embryos..... 89
Shivali Dongre, Lennart Hilbert, and Nadine L. Vastenhouw

8 Quantifying Transcription Factor Enrichment at Target Loci
in Live Embryos 119
*Samantha Fallacaro, Apratim Mukherjee, Ernesto Gamauf,
and Mustafa Mir*

9 Quantifying Nascent Transcription in Early Embryogenesis 143
Hui Chen

10 Ribosomal RNA Depletion for Poly(A)-Tail-Independent
Quantification of Genome Activation..... 163
Wesley A. Phelps, Taylor N. Ayers, and Miler T. Lee

11 Monitoring miRNA Expression and Activity in Mammalian
Oocytes and Early Embryos 181
Shubhangini Kataruka and Petr Svoboda

PART III TRANSLATION AND CELL DIVISION

12	Ribo-ITP: A Method for Ribosome Profiling in Single Cells and Low-Input Samples	197
	<i>Shilpa Rao, Tori Tonn, and Can Cenik</i>	
13	Imaging Translation in Early Embryo Development.	215
	<i>Pierre Bensidoun, Morgane Verbrugghe, and Mounia Lagha</i>	
14	Image Segmentation Software for Nuclear Segmentation and Cell Cycle Tracking from 4D Embryo Light Sheet Data	231
	<i>Haseeb Khalid Qureshi, Andor Magony, Yavor Hadzhiev, Kacper Wozniak, Attila Sík, and Ferenc Müller</i>	
15	Quantitative Staging of Mid-blastula Zebrafish Embryos by Nuclei Counting	241
	<i>William D. Jones and Mary C. Mullins</i>	
	<i>Index</i>	261
