

Contents

Preface iii

- 1** *The Concept of Animal Diversity* 1
- 2** *Protozoa* 35
- 3** *Porifera* 50
- 4** *Coelenterata and Ctenophora* 61
- 5** *Platyhelminthes and Nemertinea* 75
- 6** *Pseudocoelomates: Nematoda,
Acanthocephala, and Rotifera* 89
- 7** *Annelida* 101
- 8** *Mollusca* 117
- 9** *Arthropoda and Onychophora* 134
- 10** *Echinodermata, Ectoprocta, Brachiopoda,
and Chaetognatha* 166
- 11** *Chordata and Hemichordata* 182
- 12** *Chordata Continued—Primates* 226
- Index* 239

Modern Biology Series Consulting Editors

James D. Ebert

Carnegie Institution of Washington

Howard A. Schneiderman

University of California, Irvine

Published Titles

<i>Delevoryas</i>	Plant Diversification
<i>Ebert-Sussex</i>	Interacting Systems in Development, second edition
<i>Ehrenfeld</i>	Biological Conservation
<i>Fingerman</i>	Animal Diversity, second edition
<i>Griffin-Novick</i>	Animal Structure and Function, second edition
<i>Levine</i>	Genetics, second edition
<i>Novikoff-Holtzman</i>	Cells and Organelles, second edition
<i>Odum</i>	Ecology, second edition
<i>Ray</i>	The Living Plant, second edition
<i>Savage</i>	Evolution, second edition
<i>Sistrom</i>	Microbial Life, second edition
<i>Van der Kloot</i>	Behavior
