Preface	IX
Acknowledgements	X
Abbreviations	XI
Introduction	1
1 What Is AI	5
1 Understand AI	5
1.1 From the Turing Test to Current Regulations	5
1.2 AI, Machine Learning and Deep Learning	5
1.3 Algorithms	7
1.4 The Development of AI across the Years	9
1.5 The Basic Functioning of AI	11
1.6 Models of AI Learning	11
1.7 Hardware and Software	13
1.8 Different Types of AI Development and Autonomy	13
1.9 Black, Grey and White Boxes	15
2 Uses of AI in Healthcare Delivery	16
1 Possible Uses of AI in Healthcare Provision	16
1.1 General Overview	16
1.2 Triage	17
1.3 Management of Medical/Clinical Information	17
1.4 Analysis of Exams and Diagnosis	18
1.5 Prediction and Risk Calculation	19
1.6 Therapeutic Options	20
1.7 Personalised Medicine	21
1.8 Robotic Surgeries	21
1.9 Caregiver Robots	25
1.10 Non-Medical Tasks	26
2 Does AI Surpass Humans in Healthcare Delivery?	27
2.1 The Added Value of AI in Healthcare	27
2.2 The Drawbacks of AI in Healthcare	28
2.3 Medical AI Capacities versus Human Doctors' Capacities	29
2.4 The Added Value of Combining AI and Humans in Healthcare Delivery	30

3	Medical AI and Patient Safety	32
1	AI and Patient Safety	32
1.1	<i>Medical Errors and Patient Safety</i>	32
1.2	<i>The Added Value of AI for Patient Safety</i>	33
2	Legal Regulations Aimed to Improve the Safety of Medical AI	34
2.1	<i>Medical IT Regulation</i>	34
2.2	<i>Product Safety Norms</i>	35
2.3	<i>The Medical Device Regulation</i>	36
2.4	<i>The AI Regulation</i>	40
3	Reduction of the Quality of Healthcare Delivery and Threats to Patient Safety	44
3.1	<i>Data</i>	44
3.2	<i>Bias</i>	54
3.3	<i>Lack of Transparency</i>	62
3.4	<i>Lack of Explainability and the Black Box Problem</i>	65
3.5	<i>Imprecision and Flawed Results</i>	81
3.6	<i>The Standardisation of the Unusual</i>	88
3.7	<i>Cybersecurity</i>	89
3.8	<i>AI 'Creativity' and Lack of Predictability</i>	91
3.9	<i>Failures in Unpredictable Scenarios</i>	92
3.10	<i>Lack of Human Expertise</i>	93
3.11	<i>Lack of Empathy</i>	94
3.12	<i>Lack of Trust</i>	95
3.13	<i>Ethical AI</i>	99
4	Medical AI and Standard of Care	101
1	The Standard of Care in Medical Practice	101
1.1	<i>The Concept of Standard of Care</i>	101
1.2	<i>Standard of Care and Innovative Practices</i>	105
2	The Standard of Care within AI Medicine	112
2.1	<i>Ethical AI Medicine</i>	112
2.2	<i>How AI Influences the Standard of Care</i>	113
2.3	<i>The Difficulties in Defining the AI Standard of Care</i>	114
2.4	<i>A More Demanding Standard of Care for Doctors</i>	115
2.5	<i>AI and Defensive Medicine</i>	120
2.6	<i>A Specific Standard of Care Applicable to AI</i>	121
5	Allocation of Liability for Damages Caused to Patients	133
1	Professional Liability versus Product Liability	133
1.1	<i>Different Perspectives and Different Scenarios</i>	133

1.2	<i>A Case Study: the Taylor v. Intuitive Surgical Case</i>	135
1.3	<i>Selecting the Best Option</i>	136
1.4	<i>The Liability Gap</i>	138
1.5	<i>Mechanisms to Address the Liability Gap</i>	139
1.6	<i>The Difficulties in Assessing Liability Grounded on AI Specificities</i>	142
2	<i>Medical Liability within AI Medicine</i>	145
2.1	<i>Basic Concepts in Civil Medical Liability</i>	145
2.2	<i>Medical Liability in Civil Law and in Tort Law</i>	147
2.3	<i>The Allocation of Liability between Stakeholders</i>	148
2.4	<i>Holding the Human Doctor Accountable</i>	150
2.5	<i>Causation</i>	152
2.6	<i>The Liability of the Human Healthcare Provider</i>	154
2.7	<i>The Liability of the Healthcare Facility</i>	161
3	<i>Product Liability</i>	173
3.1	<i>AI as a Product</i>	173
3.2	<i>The Liability of the Manufacturer</i>	175
3.3	<i>Defective AI Products</i>	179
3.4	<i>The PLD and the AILD</i>	180
3.5	<i>The PLD</i>	183
3.6	<i>The AILD</i>	193
4	<i>Liability of the Authority That Approved the AI System</i>	202
4.1	<i>Liability of Approval Bodies and Authorities</i>	202
4.2	<i>The Specific Case of Notified Bodies under the MDR and the AIA</i>	202
5	<i>Overview of Possible Scenarios of Medical Liability When Using AI</i>	204
5.1	<i>No AI Intervention in the Outcome</i>	204
5.2	<i>Correct AI Outcome and Wrongful Deviation from the Human</i>	204
5.3	<i>Wrongful AI Outcome and Excessive Trust from Humans</i>	205
5.4	<i>Wrongful Use of the AI System</i>	206
6	<i>The Liability of AI</i>	207
6.1	<i>The Direct Liability of the AI Entity</i>	207
6.2	<i>Responsibility of the Institution through the Accountability of AI</i>	211
6.3	<i>Alternative Liability Models</i>	212
7	<i>A Possible Way Ahead: the No-Fault Mechanism</i>	213
7.1	<i>The Criticism of the Negligence-Based Models</i>	213
7.2	<i>The No-Fault System</i>	216

8	Insurance	218
8.1	<i>The Added Benefit of AI Insurance Schemes</i>	218
8.2	<i>Insurance for Humans and Insurance for Software</i>	219
8.3	<i>The Costs of AI Insurance</i>	219
6	A Standard of Care for AI Medicine	221
1	Medical Standard of Care and Technological Innovation	221
1.1	<i>A Delicate Balance between Regulation and Innovation</i>	221
1.2	<i>The Doctor-Machine Relationship</i>	222
2	Medical AI Specific Patient's Rights	223
2.1	<i>Privacy Rights and Data Protection Rights</i>	223
2.2	<i>The Right Not to Have AI Involved in Medical Care</i>	224
3	AI Standard of Care: When to Use AI / When to Rely on AI	229
3.1	<i>Trust in Technology</i>	229
3.2	<i>Trust in AI Medicine</i>	230
3.3	<i>Disagreements between the Doctor and the AI Systems</i>	233
3.4	<i>Liability Considerations in the Use of AI in Healthcare Delivery</i>	235
3.5	<i>Human Oversight</i>	238
3.6	<i>The Use of AI as Part of the Medical Standard of Care</i>	244
4	AI Standard of Care: Informed Consent in AI Medicine	245
4.1	<i>The Ratio of Patients' Informed Consent</i>	245
4.2	<i>Content of Informed Consent in AI Medicine</i>	246
4.3	<i>Challenges Raised by Black-Box AI</i>	253
4.4	<i>Too Much Information versus Reasonable Information</i>	255
4.5	<i>From Informed Consent to Patient Participation in Decision Making</i>	257
5	Empathy in AI-Based Medicine	259
5.1	<i>The Relevance of Empathy in Healthcare</i>	259
5.2	<i>Changes in Doctor-Patient Relationship</i>	260
5.3	<i>The Progressive Erosion of Medical Empathy due to Technology</i>	261
5.4	<i>Empathy in Doctor-Patient-AI Relationship</i>	262
	Conclusive Notes	269
1	Will AI Replace Human Doctors?	269
2	Closing Observations	270
	References	273
	Index	335
