

Contents

Summary	1
1 Introduction	11
Charge to the Committee, 12	
Contributions of <i>HPL I</i> , 14	
Interpreting the Charge, 16	
Gathering Evidence to Address the Charge, 16	
Treatment of Evidence, 18	
Guide to This Report, 20	
2 Context and Culture	21
The Cultural Nature of Learning, 22	
Defining Culture, 22	
The Role of Culture in Learning and Development, 24	
Learning as Social Activity, 26	
The Dynamic Interaction of Culture, Biology, and Context, 27	
Social and Emotional Influences, 29	
Physical Influences, 30	
Conclusion, 33	
3 Types of Learning and the Developing Brain	35
Types of Learning, 35	
Three Learning Scenarios, 36	
Basic Types of Learning, 38	
Integrating Types of Learning, 55	

Learning and the Brain, 55	
Prenatal and Lifelong Brain Development and Maturation, 56	
Brain Adaptation in Response to Learning, 59	
Evidence of Learning-Related Changes in the Brain Throughout the Life Span, 62	
Conclusions, 67	
4 Processes That Support Learning	69
Orchestrating Learning, 70	
Executive Function, 70	
Self-Regulation of Learning, 72	
Memory, 74	
Reconstructing Memories, 74	
Working and Long-Term Memory, 77	
Memory for Episodes of Learning, 79	
Conclusions, 83	
5 Knowledge and Reasoning	85
Building a Knowledge Base, 86	
Knowledge and Expertise, 90	
Benefits of Expertise, 90	
Bias as a Natural Side Effect of Knowledge, 91	
Knowledge Integration and Reasoning, 93	
Inferential Reasoning, 93	
Age-Related Changes in Knowledge and Reasoning, 94	
Effects of Culture on Reasoning, 96	
Strategies to Support Learning, 97	
Strategies for Knowledge Retention, 98	
Strategies for Understanding and Integration, 101	
Conclusions, 106	
6 Motivation to Learn	109
Theoretical Perspectives, 110	
Learners' Beliefs and Values, 111	
Self-Efficacy, 111	
Values, 113	
Interest, 113	
Intrinsic Motivation, 115	
External Rewards, 115	
Effects of Choice, 117	
The Importance of Goals, 117	
Types of Goals, 118	
Influence of Teachers on Learners' Goals, 120	
Learning Goals and Other Goals, 121	

Future Identities and Long-Term Persistence, 122	
Social and Cultural Influences on Motivation, 124	
Cross-Cultural Differences in Learners' Self-Construals, 124	
Social Identity and Motivation Processes, 126	
Stereotype Threat, 127	
Interventions to Improve Motivation, 131	
Conclusions, 132	

7 Implications for Learning in School 135

Culture and Learning in School, 136	
School and Classroom Contexts, 137	
Shifting from "Deficit" to "Asset" Models, 140	
Discipline-Specific Learning, 143	
Mathematics, 144	
Science, 145	
History, 146	
Engaging and Empowering Learners, 148	
Self-Regulated Learning, 149	
Instructional Approaches for Engaging the Learner, 151	
Assessing Learning, 153	
Providing Feedback to Learners, 154	
Connecting Assessment to Evidence about How Students Learn, 155	
Conclusions, 160	

8 Digital Technology 163

Aligning Technologies with Learning Goals, 164	
Affordances of Learning Technologies, 164	
Learning Through Repetition, 166	
Deeper Learning with Models, 167	
Collaborative and Cooperative Learning, 169	
Technology-Supported Self-Regulated Learning, 170	
Technologies that Stimulate Active Learning, 172	
Learning Through Game Play, 172	
Leveraging Stories and Favorite Characters, 173	
Empowering Learners as Producers and Creators, 175	
Making, 176	
Embodied Cognition, 177	
Conversational Agents, 179	
Technologies for Instruction, 180	
Linking Formal and Informal Learning, 180	
Orchestrating Instruction, 181	
Writing Instruction, 183	
Opportunities and Challenges, 184	
Digital Dashboards, 184	

Distance Learning, 185	
Mobile Personal Devices, 186	
Problematic Features of Technology, 187	
Universal Design, 189	
Technology for Learning in Later Life, 190	
The Digital Divide, 193	
A Systematic Approach to Implementation, 194	
Conclusions, 196	
9 Learning Across the Life Span	197
Changes That Occur with Age, 198	
Reasoning and Knowledge, 198	
Motivation for Learning, 199	
Learning Activities and Environments, 200	
Cognitive Abilities, 202	
Learning Disabilities, 203	
Causes of Learning Disabilities, 204	
Reading Disabilities, 205	
Mathematics Disabilities, 206	
Learning Disabilities in Adults, 207	
Adult Literacy, 208	
Interventions, 209	
Postsecondary Educational Experiences, 211	
Workforce Training, 213	
Determining Whether People Learn in the Workplace, 214	
Training Transfer, 215	
Autonomous Workplace Learning, 216	
Self-Regulated Learning in the Workplace, 219	
The Importance of Active Engagement, 220	
Fostering Lifelong Learning, 221	
Conclusions, 223	
10 Research Agenda	225
The Dynamic Nature of Learning, 225	
Research Agenda, 227
